THE ARCH NEWSLETTER

AUGUST-SEPTEMBER 2023

NEWS

THE 2023 CHRISTOPHER N.H. JENKINS AWARD

RECIPIENT: DR. SCARLETT LIN GOMEZ

ARCH is pleased to announce that Scarlett Lin Gomez, MPH, PhD is the 2023 Christopher N.H. Jenkins Award recipient! This reward recognizes Dr.

Gomez's significant achievements in community-oriented cancer prevention and control efforts for Asian Americans and Pacific Islanders. Dr. Gomez is a Professor in UCSF Department of Epidemiology and Biostatistics and a key member of the Helen Diller Family Comprehensive Cancer Center, where she is part of the Population Sciences Program and a part of the Leadership Committee of the Prostate Cancer Program.

Dr. Gomez's many accomplishments include the development of the California Neighborhoods Data System, a compilation of small-area level data on social and built environmental characteristics and has used these data in more than a dozen funded studies to evaluate the impact of social and built neighborhood environment factors on disease outcomes. Furthermore, she has significantly contributed surveillance data on cancer incidence, outcomes, and trends among distinctive Asian American, Native Hawaiian, Pacific Islander, and Hispanic ethnic groups, as well as cancer patterns based on nativity status and neighborhood characteristics.

Dr. Gomez's impactful work and contributions to cancer data collection, research on multi-level drivers of cancer health disparities, and mentorship continues to aid Asian American and Pacific Islander communities, providing strategies for understanding and addressing their cancer burdens.

Dr. Gomez will be honored and speak at a virtual Jenkins Award Reception on Thursday, October 26, 2023 from 12:00-1:30 PM PST. **Please register [here](#) to join us!**

NEWS

DR. GRACE YOO NAMED DEAN OF SF STATE'S COLLEGE OF ETHNIC STUDIES

Congratulations to Dr. Grace Yoo for being selected to serve as the next dean of [San Francisco State University's College of Ethnic Studies!](#)

DR. JANICE TSOH RECEIVES AN INVITATIONAL RESEARCH FELLOWSHIP AWARD FROM THE JAPAN SOCIETY FOR THE PROMOTION OF SCIENCE

ARCH Co-Director Dr. Janice Tsoh has received an [Invitational Research Fellowship Award](#) from the Japan Society for the Promotion of Science to study mental health needs and service utilization among Chinese immigrants in Japan. In July 2023, Dr. Tsoh started her 10-month research fellowship at Toho University Faculty of Medicine in Tokyo, Japan. Read more [here](#).

DR. JANE JIH NAMED UCSF LEAD FOR THE UC CONSORTIUM ON AAPI POLICY & COMMUNITY PRIORITIES

ARCH Co-Director Dr. Jane Jih has been named the UCSF Lead for the UC Consortium on AAPI Policy & Community Priorities to help advance building community and outreach to UC researchers investigating issues and policies affecting AA & NH/PI populations and communities and represent the needs and interests of campus-based researchers in efforts to increase capacity at UC to conduct research on AA & NH/PI populations and communities. This consortium is funded by the state's API Equity Budget passed in 2021 which included funding to expand research capacity in California to study AA & NH/PI populations and to produce data that inform policies affecting AA & NH/PI communities. More details to follow in future emails.

DR. JAMIE CHANG NOW AT UC BERKELEY

[Dr. Jamie Chang](#) is now at UC Berkeley where she is an Associate Professor in the School of Social Welfare focusing on structural determinants of homelessness.

GRANTS

DR. VAN TA PARK WITH TWO NEW GRANTS AWARDED FROM NATIONAL INSTITUTE ON AGING

The Collaborative Approach for Asian American, Native Hawaiian, and Pacific Islander Research and Education (CARE 2.0) project has secured a \$16.1 million 5-year grant from the NIH/NIA with ARCH member Dr. Van Ta Park as the lead Multiple Principal Investigator, alongside ARCH Co-Director Dr. Janice Tsoh as Multiple Principal Investigator and other ARCH members, Drs. Arnab Mukherjea and Oanh Meyer, as co-Is.

The Asian Cohort for Alzheimer's Disease (ACAD) project has received a \$40 million 5-year grant from the NIH/NIA with ARCH member Dr. Van Ta Park as Multiple Principal Investigator.

Read more in an [UCSF News Release](#) and listen to a [KCBS radio interview](#) of Dr. Park.

DR. ADRIAN M. BACONG AWARDED AMERICAN HEART ASSOCIATION GRANT

Dr. Adrian M. Bacong has recently become a T32 Postdoctoral Fellow in the Division of Endocrinology in the Department of Medicine at Stanford University. Dr. Bacong has also been awarded an American Heart Association "Assessing Race in Clinical Research Models" Data Science Grant. His project, "Evaluating Cardiovascular Risk Algorithms Among Single and Multiracial/Multiethnic Asian People" will use electronic health record data to assess the use of "race correction" factors in risk prediction and explore other social indicators as alternatives to race.

DR. JANICE TSOH AND TEAM AWARDED GRANT

Dr. Janice Tsoh (PI), Joyce Cheng (co-PI), JiWon Choi (co-PI), Nancy Burke (co-I) & Tung Nguyen (co-I) received a 1-year Implementation Award from the [California Collaborative for Pandemic Recovery and Readiness Research](#) funded by the California Department of Public Health for their project "Getting INFORMED and Living Well: A Demonstration Project to Facilitate Pandemic Recovery among Asian Americans in California" which aims to promote emotional wellness among 600 Asian Californians in English, Chinese, Korean, Hmong and Vietnamese.

UPCOMING ARCH MEETINGS - PLEASE MARK YOUR CALENDARS!

Zoom:

<https://ucsf.zoom.us/j/94652889326?pwd=Y01yRmpPMXNMeiVabXFSNTVhYmtWZz09>

Meeting ID: 946 5288 9326

Password: 542288

FUTURE MEETING: November 8, 2023

Symposium at San Francisco State University hosted by Drs. Grace Yoo, Zubaida Qamar, Supriya Misra and colleagues (More details to come)

PAST MEETING: August 17, 2023

Speaker: Ninez Ponce, MPP, PhD, Professor, UCLA Fielding School of Public Health; Director, Center for Health Policy Research

RECAP: *For our August quarterly meeting, Dr. Ninez Ponce gave the quarterly talk titled: "The What and the How of Data Equity." In her talk, Dr. Ponce champions better data, especially for people from marginalized racial/ethnic, sexual orientation/ gender identity, and immigrant populations. She firmly believes that equity-centered data will lead to more meaningful program and policy inferences and better care for overlooked groups. A recording of the talk will be available on the ARCH website under "Events" soon.*

ABSTRACTS REVIEWS

Compiled by Maxwell Ho, Carmen Ma & Angeline Truong

April 1, 2023 to June 30, 2023

ARCH Members Abstracts

- Bacong and colleagues quantified diabetes-related mortality in Asian American subgroups and compared results to other racial-ethnic groups in the U.S. <https://pubmed.ncbi.nlm.nih.gov/37323867/>
- Bacong and colleagues analyzed whether social disadvantage and racial discrimination were associated with racial-ethnic disparities in COVID-19 vaccination in a voter dataset. <https://pubmed.ncbi.nlm.nih.gov/36744154/>
- Bacong and colleagues examined if loneliness, citizenship status, and English proficiency were associated with or moderate the relationship with psychological distress. <https://pubmed.ncbi.nlm.nih.gov/37195426/>
- Bacong and colleagues examined the prevalence of cardiovascular disease among API subgroups and multi-racial populations. <https://pubmed.ncbi.nlm.nih.gov/37189145/>
- Bacong and colleagues reviewed five domains of social determinants of health in the context of cardiovascular disease and how clinicians and healthcare systems can address them. <https://pubmed.ncbi.nlm.nih.gov/37019584/>
- Bacong, Yellow Horse, Saw, and colleagues examined the association between vaccine hesitancy and modes of COVID-19 information, moderated by exposure to cyberbullying. <https://pubmed.ncbi.nlm.nih.gov/37362393/>
- Burke and colleagues assessed public support among California Central Valley residents for policies to regulate flavored tobacco and e-cigarette products. <https://pubmed.ncbi.nlm.nih.gov/35064014/>
- Burke and colleagues conducted a qualitative study to identify the needs of PCPs caring for breast and colon cancer survivors in safety-net health care settings. <https://pubmed.ncbi.nlm.nih.gov/35829986/>
- Burke and colleagues conducted interviews to collect the perspectives and experiences of key informants and newly arrived Afghan refugees regarding food security in the San Joaquin Valley. <https://pubmed.ncbi.nlm.nih.gov/37239572/>
- Chen CH and colleagues analyzed the association between cannabis use and semen parameters in Asian-American men. <https://pubmed.ncbi.nlm.nih.gov/36047080/>
- Chen CH and colleagues examined blood neurofilament light chain levels (as a measure of neuroaxonal injury) in patients with alcohol dependence following withdrawal and studied the moderating effect of ALDH2 polymorphism. <https://pubmed.ncbi.nlm.nih.gov/37314537/>
- Chen CH and colleagues use a mouse knock-in model to demonstrate that a common East Asian aldehyde dehydrogenase 2*2 variant promotes ventricular arrhythmia with chronic light-to-moderate alcohol use. <https://pubmed.ncbi.nlm.nih.gov/37280327/>
- Chen I examined considerations for the development and rollout of the solid dispersion formulation of ganaplacide plus lumefantrine (malaria treatment). <https://pubmed.ncbi.nlm.nih.gov/37327810/>
- Chu and colleagues summarized findings and highlights of the policy discussion at ICER's CRAF about their systematic literature review and cost-effectiveness analysis to evaluate gene therapies for hemophilia. <https://pubmed.ncbi.nlm.nih.gov/37121251/>
- Chu, Gomez, and colleagues examined associations between neighborhood attributes and cardiovascular disease risk in a cohort of women with invasive breast cancer. <https://pubmed.ncbi.nlm.nih.gov/37096827/>
- Fukuoka and colleagues assessed the use of feature selection and classification approaches on multidimensional data to predict weight loss for the prevention of T2DM in a cohort of Filipino Americans. <https://pubmed.ncbi.nlm.nih.gov/37040172/>
- Gomez and colleagues analyzed the association between antimicrobial exposure and decreased survival in triple-negative breast cancer. <https://pubmed.ncbi.nlm.nih.gov/37045824/>

- Gomez and colleagues conducted a retrospective case-control study on breast cancer diagnosis, treatment, and outcomes of patients from sex and gender minority groups. <https://pubmed.ncbi.nlm.nih.gov/36729432/>
- Gomez and colleagues examined disparities in cancer incidence among rural California populations and associations. <https://pubmed.ncbi.nlm.nih.gov/36622036/>
- Gomez and colleagues reviewed current research and future directions for the role of neighborhood context in ovarian cancer survival disparities. <https://pubmed.ncbi.nlm.nih.gov/37116824/>
- Gomez and colleagues analyzed delays in time to surgery among subgroups of Asian and Pacific Islander women with breast cancer. <https://pubmed.ncbi.nlm.nih.gov/37365415/>
- Ho, Karliner and colleagues examined physician communication about depressive symptoms with Chinese and Latino patients in primary care visits in audio-recorded conversations. <https://pubmed.ncbi.nlm.nih.gov/37364381/>
- Ivey and colleagues developed a culturally-tailored cookbook for promoting positive dietary change among Filipino Americans with hypertension, using participatory methods and design thinking with Filipino culinary experts and a registered dietician. <https://pubmed.ncbi.nlm.nih.gov/37153920/>
- Joseph and colleagues conducted a randomized experiment to examine the efficacy of an online communication skill training intervention on genetic counseling students' performance during standardized patient sessions. <https://pubmed.ncbi.nlm.nih.gov/37301010/>
- Joseph and colleagues conducted an embedded Ethical, Legal, and Social Implications (ELSI) to examine the role of polygenic risk scores in breast cancer risk perception and decision-making. <https://pubmed.ncbi.nlm.nih.gov/37311883/>
- Joseph and colleagues evaluated the Futuros Fuertes intervention to promote healthy infant feeding, screen time, and sleep practices in a low-income Latino infant-parent cohort. <https://pubmed.ncbi.nlm.nih.gov/37211275/>
- Kanaya and colleagues examined the association between coronary artery calcium density and volume, and predicted atherosclerotic cardiovascular disease risk and cardiometabolic risk factors in a South Asian cohort of the MASALA Study. <https://pubmed.ncbi.nlm.nih.gov/34999157/>
- Kanaya and colleagues analyzed the association between miRNAs and incident T2DM in a banked biospecimen cohort. <https://pubmed.ncbi.nlm.nih.gov/36477577/>
- Kanaya and colleagues assessed hypertension prevalence in four racial/ethnic groups, including South Asians, and associations with religion and spirituality. <https://pubmed.ncbi.nlm.nih.gov/37265144/>
- Kanaya and colleagues developed a framework and recommendations to investigate cardiovascular health disparities among subgroups of South Asian immigrants in the U.S. <https://pubmed.ncbi.nlm.nih.gov/36898570/>
- Kanaya and colleagues evaluated cross-sectional and prospective associations between a novel South Asian Mediterranean-style (SAM) diet and cardiometabolic risk among US South Asian individuals in the MASALA study cohort. <https://pubmed.ncbi.nlm.nih.gov/37203330/>
- Kanaya and colleagues evaluated the distribution and correlates of cardiovascular health via the Life's Essential 8 and looked at associations with coronary artery calcium in a South Asian American cohort from the MASALA study. <https://pubmed.ncbi.nlm.nih.gov/37262988/>
- Kanaya and colleagues examined patterns of metabolites associated with the Health Eating Index. <https://pubmed.ncbi.nlm.nih.gov/37271414/>
- Kanaya and colleagues, representing the American Heart Association, published a scientific statement about the (disaggregated) epidemiology, management, and future directions of diabetes and atherosclerotic cardiovascular disease. <https://pubmed.ncbi.nlm.nih.gov/37154053/>
- Karliner and colleagues adapted an existing language observation tool for use in clinical settings to assess medical oral language proficiency. <https://pubmed.ncbi.nlm.nih.gov/36484536/>
- Karliner, Burke, and colleagues discussed opportunities for systems-level interventions of primary care physicians' perceived barriers to follow-up of abnormal mammogram results. <https://pubmed.ncbi.nlm.nih.gov/36451017/>

- Khalili and colleagues analyzed how HIV coinfection impacts HBV viral markers based on hepatitis B antigen status in patients with suppressed viremia. <https://pubmed.ncbi.nlm.nih.gov/37278302/>
- Khalili and colleagues conducted a cross-sectional study and modeling on stigma and motivation to adhere to lifestyle modification among vulnerable populations with fatty liver disease in San Francisco. <https://onlinelibrary.wiley.com/doi/10.1002/osp4.688>
- Khalili and colleagues examined if HBV RNA and hepatitis B core-related antigen could improve the ability to predict serological status and disease activity in chronic hepatitis B. <https://pubmed.ncbi.nlm.nih.gov/37074026/>
- Khalili and colleagues examined racial disparities in treatment initiation and outcomes of chronic hepatitis B infection in North America. <https://pubmed.ncbi.nlm.nih.gov/37036707/>
- Kim and colleagues examined peer crowd-based targeting in e-cigarette advertisements among young adults. <https://pubmed.ncbi.nlm.nih.gov/37101413/>
- Maglalang and colleagues analyzed how psychological distress, binge drinking, and socio-demographic factors was associated with use of tobacco and nicotine products in a cohort of LGBTQI+ cancer survivors. <https://pubmed.ncbi.nlm.nih.gov/37012576/>
- Mahadevan and colleagues conducted a retrospective cohort study of adult patients with moderate to severe Crohn's Disease to evaluate clinical response to upadacitinib. <https://pubmed.ncbi.nlm.nih.gov/36272109/>
- Mahadevan and colleagues examined outcomes of adult patients with moderate to severe ulcerative colitis using tofacitinib. <https://pubmed.ncbi.nlm.nih.gov/36272109/>
- Mahadevan and colleagues published a correspondence on tofacitinib concentrations in plasma and breastmilk of a lactating woman with ulcerative colitis. <https://pubmed.ncbi.nlm.nih.gov/37269871/>
- Mahadevan and colleagues wrote an article on tips and tricks to plan and hold a continuing medical education course. <https://pubmed.ncbi.nlm.nih.gov/36736705/>
- Meyer and colleagues wrote a review of studies on neighborhood greenspace and brain health by racialized/ethnic group and geographic region. <https://pubmed.ncbi.nlm.nih.gov/37174185/>
- Meyer, Park, Kanaya, and colleagues recommended an increased emphasis on studying Alzheimer's disease and related dementias among Vietnamese American cohorts to understand sociocultural and health factors in late-life cognitive aging in all populations. <https://pubmed.ncbi.nlm.nih.gov/37251911/>
- Misra and co-authors publish on the partition of India through the lens of historical trauma and its intergenerational effects on immigrant health in the South Asian diaspora <https://www.sciencedirect.com/science/article/pii/S2666560323000610>
- Nguyen N and colleagues conducted a longitudinal qualitative study of US young adults who used electronic cigarettes (ENDS) for smoking cessation. <https://pubmed.ncbi.nlm.nih.gov/37072166/>
- Nguyen N and colleagues surveyed young adults in the Bay Area to examine changes in young adults' perceived harms of tobacco and cannabis and their associations with use behavior. <https://pubmed.ncbi.nlm.nih.gov/37263178/>
- Nguyen P and colleagues analyzed peripheral blood samples from a South African adolescent cohort to understand gamma delta T cell response in acute and chronic phases of tuberculosis infection. <https://pubmed.ncbi.nlm.nih.gov/37000856/>
- Nguyen P and colleagues analyzed the capability of distinct vascular stem/progenitor cells for neovascularization and ischemic rescue with potential application to peripheral vascular disease. <https://pubmed.ncbi.nlm.nih.gov/37051932/>
- Nguyen P and colleagues published a state-of-the-art review of the social determinants of health in the context of cardiovascular disease, including strategies for clinicians and health care systems to address them. <https://pubmed.ncbi.nlm.nih.gov/37019584/>
- Nguyen P published a paper on using PET-FDG for vascular imaging to assess inflammatory risk. <https://pubmed.ncbi.nlm.nih.gov/37051932/>
- Nguyen P published an editorial about risk prediction for abdominal aortic aneurysm. <https://pubmed.ncbi.nlm.nih.gov/35174443/>

- Nguyen TT and colleagues examined Twitter-derived negative racial sentiment as indicators of cultural racism and discovered observational associations with preterm birth and low birth weight in a multiracial sample of mothers. <https://pubmed.ncbi.nlm.nih.gov/37115602/>
- Nguyen TT and colleagues explored the relationship between historic sundown town status, COVID-19 local risk index, and city-level racial/ethnic diversity. <https://pubmed.ncbi.nlm.nih.gov/37363357/>
- Park and colleagues explore the association between multiple chronic conditions and disability among Vietnamese older adults from the Vietnamese Aging and Care survey. <https://link.springer.com/article/10.1007/s40615-023-01652-z>
- Park, Tsoh, Meyer, Kanaya, and colleagues conducted a discrete choice experiment to identify AAPI adults' preferences for recruitment strategies/messaging to enroll in the CARE registry for dementia-related research. <https://pubmed.ncbi.nlm.nih.gov/37171018/>
- Qamar and colleagues wrote a perspective piece to highlight research gaps in college food insecurity and identify five thematic areas of gaps. <https://pubmed.ncbi.nlm.nih.gov/37158045/>
- Raj and colleagues conducted a cross-sectional survey to analyze perceived facilitators and barriers to implementing culturally inclusive diets into hospitals and long-term care facilities. <https://pubmed.ncbi.nlm.nih.gov/37247822/>
- Sarkar and colleagues evaluated the usability and acceptability of the SomnoRing, a wearable sleep monitoring device, and its accompanying mobile app among English- and Spanish-speaking patients treated in a safety net clinic. <https://pubmed.ncbi.nlm.nih.gov/37098152/>
- Sarkar and colleagues examined factors associated with diagnostic error in closed medical malpractice claims. <https://pubmed.ncbi.nlm.nih.gov/36631023/>
- Sarkar and colleagues synthesized literature on digital health equity and digital health uptake in different dimensions of healthcare. <https://pubmed.ncbi.nlm.nih.gov/36525960/>
- Sarkar and colleagues systematically reviewed usability studies on virtual reality or chronic pain management among historically marginalized populations. <https://pubmed.ncbi.nlm.nih.gov/37279039/>
- Saw and colleagues analyzed psychological distress and unmet mental health needs and associated sociodemographic factors among Asian and Asian American Adults during the COVID-19 pandemic. <https://pubmed.ncbi.nlm.nih.gov/36971268/>
- Shim and colleagues examined how stakeholders in precision medicine research understand and implement organizational practices and community engagement, in particular their impacts for equity. <https://pubmed.ncbi.nlm.nih.gov/37126431/>
- Singh and colleagues wrote about how the American Spinal Injury Association's Impairment Scale underestimates neurological recovery following traumatic spinal injury. https://journals.lww.com/neurosurgery/Abstract/2023/04001/188_American_Spinal_Injury_Association_A_SIA_.97.aspx
- Somsouk and colleagues analyzed an outreach campaign involving mailing fecal immunochemical tests for colorectal cancer screening. <https://pubmed.ncbi.nlm.nih.gov/36964863/>
- Somsouk and colleagues reviewed studies about the human microbiome and gut-liver axis in people living with HIV. <https://pubmed.ncbi.nlm.nih.gov/37129834/>
- Somsouk and colleagues conducted a qualitative study to evaluate the implementation of a novel program to support colorectal cancer screening in a community health center consortium before and after the COVID-19 pandemic. <https://pubmed.ncbi.nlm.nih.gov/37218022/>
- Sudhinaraset and colleagues analyzed associations between immigration enforcement policies (measures of individual and cumulative enforcement experiences) and barriers to health care. <https://pubmed.ncbi.nlm.nih.gov/36939228/>
- Sudhinaraset and colleagues assessed a quality improvement intervention or person-centered maternity care in Kenya. <https://pubmed.ncbi.nlm.nih.gov/36857118/>
- Sudhinaraset and colleagues conducted a qualitative study to understand maternity care at the intersection of language, ethnicity, and immigration status. <https://pubmed.ncbi.nlm.nih.gov/37244759/>

- Sudhinaraset and colleagues wrote an article on standardized measurement of person-centered sexual and reproductive health. <https://pubmed.ncbi.nlm.nih.gov/37232021/>
- Sy and colleagues studied the implementation of healthy beverages as a nutrition intervention in American Samoa and the Federated States of Micronesia. <https://pubmed.ncbi.nlm.nih.gov/36999501/>
- Sy and co-authors report on utilizing Filipino key informants to guide community outreach for cancer prevention in Hawai'i. <https://pubmed.ncbi.nlm.nih.gov/37530122/>
- Tam and colleagues examined at-risk drinking prevalence rates among U.S. adults with chronic health conditions, looking at differences by gender, race, and ethnicity. <https://pubmed.ncbi.nlm.nih.gov/37219733/>
- Tam and colleagues examined risky drinking and other drug use in adults with chronic conditions, emphasizing differences in race/ethnicity. <https://pubmed.ncbi.nlm.nih.gov/37258041/>
- Tseng W and colleagues investigated the longitudinal associations between cognitive decline, hypertension, and dyslipidemia in community-dwelling older adults. <https://pubmed.ncbi.nlm.nih.gov/37095338/>
- Tseng Z and colleagues conducted a randomized comparison of a radiofrequency wire vs. a radiofrequency needle system for transeptal puncture. <https://pubmed.ncbi.nlm.nih.gov/36752451/>
- Tsoh and colleagues analyzed a large EHR database to assess associations between smoking status, in-hospital NRT prescription, and vaccination status with COVID-19 clinical outcomes. <https://pubmed.ncbi.nlm.nih.gov/36069915/>
- Yen and colleagues modeled the relationship between residential mobility (number of moves during childhood) and physical and mental health, adjusting for age, race, SES, and ACEs. <https://pubmed.ncbi.nlm.nih.gov/37013813/>
- Yen, Burke, and colleagues studied pesticide take-home pathways and other methods among Hmong Farmers in California's Central Valley. <https://pubmed.ncbi.nlm.nih.gov/37031353/>
- Yoo and colleagues conducted a descriptive study on strategies for recruiting Chinese American dyads for family support of T2DM management. <https://pubmed.ncbi.nlm.nih.gov/36927285/>
- Young and colleagues conducted a qualitative study about the ethical challenges of parents enrolling undiagnosed children in genomic diagnosis research. <https://pubmed.ncbi.nlm.nih.gov/37271495/>
- Young and colleagues conducted a systematic review on demographic characteristics associated with perceptions of personal utility in genetic and genomic testing. <https://pubmed.ncbi.nlm.nih.gov/37145601/>
- Young and colleagues wrote an article about including multiracial individuals in race, ethnicity, and ancestry frameworks for genetics and genomics. <https://pubmed.ncbi.nlm.nih.gov/37202500/>
