

# ARCHIVE

## THE ARCH NEWSLETTER

NOVEMBER 2023

---

### NEWS

---

#### DR. ELISA TONG TO DIRECT NEW CALIFORNIA TOBACCO CESSATION POLICY CENTER

As part of the University of California Davis Comprehensive Cancer Center, ARCH member Dr. Elisa Tong will serve as the director of the California's first-ever [Tobacco Cessation Policy Research Center](#) funded by the Tobacco-Related Disease Research Program. Read more about it [here](#).

#### DR. NHUNG NGUYEN'S RESEARCH FEATURED AT U.S. NEWS & WORLD REPORT

ARCH member Dr. Nhung Nguyen's [recent publication in PLOS ONE](#) on depression risk among users of tobacco and marijuana was featured in a [news article by U.S. News & World Report](#).

#### ARCH MEMBERS PRESENT AT 2023 APHA MEETING

ARCH members Dr. Arnab Murkerjea, Priya Raman and Christine Chu will be presenting at the APHA annual meeting in November 2023 on work entitled "Assessing structural racism measures on health outcomes of Asian

Americans, Native Hawaiians, and Pacific islanders: A scoping review."

#### RECORDING & SLIDES ONLINE FROM 2023 JENKINS AWARD LECTURE BY DR. SCARLETT LIN GOMEZ

The [recording](#) and [slides](#) from the 2023 Jenkins Award Lecture by Dr. Scarlett Lin Gomez on October 26, 2023 are now available online.

---

### GRANTS

---

#### DR. VAN TA PARK AWARDED GRANT FROM NATIONAL INSTITUTE ON AGING

ARCH member Dr. Van Ta Park has received a R56 grant from the National Institute on Aging entitled "Asian Americans and Racism: Individual and Structural Experiences (ARISE)."

#### STAY TUNED FOR UPDATES ON ARCH MEETINGS IN 2024!

# ABSTRACTS REVIEWS

Compiled by Janet Chu

June 30, 2023 to September 30, 2023

## ARCH Members Abstracts

- Choi, Tsoh, Park, and colleagues conducted a qualitative study to explore caregiving experiences and potential cultural influences among Asian Indian, Chinese, Korean, and Vietnamese family care partners of persons living with dementia. <https://pubmed.ncbi.nlm.nih.gov.ucsf.idm.oclc.org/37655598/>
- Jih, Karliner, and colleagues explored barriers and facilitators to primary care physicians participating in non-English language proficiency assessments. <https://pubmed.ncbi.nlm.nih.gov.ucsf.idm.oclc.org/37620723/>
- Jih, Shim, and colleagues described a novel two-step systematic process for coding visual data. <https://pubmed.ncbi.nlm.nih.gov.ucsf.idm.oclc.org/37669693/>
- Jih and colleagues assessed health-related social needs for primary care patients at an academic primary care practice in San Francisco, CA. <https://pubmed.ncbi.nlm.nih.gov.ucsf.idm.oclc.org/37626286/>
- Nguyen and colleagues explored health care professionals' perceptions of caring for diverse patients with cognitive impairment who live alone compared to their counterparts who live with others. <https://pubmed.ncbi.nlm.nih.gov.ucsf.idm.oclc.org/37594759/>
- Nguyen and colleagues compared meaningful activity engagement before and at the beginning of the COVID-19 pandemic in racially and ethnically diverse older adults. <https://pubmed.ncbi.nlm.nih.gov.ucsf.idm.oclc.org/37317827/>
- Yellow Horse and colleagues assess the role of social support on the impact of discrimination on psychological distress for Asian American women and men during COVID-19. <https://pubmed.ncbi.nlm.nih.gov.ucsf.idm.oclc.org/37768606/>
- Kanaya and colleagues summarize the disaggregated data on Asian American demographics, prevalence, biological mechanisms, genetics, health behaviors, acculturation and lifestyle interventions, pharmacological therapy, complementary alternative interventions, and their impact on type 2 diabetes and atherosclerotic cardiovascular disease. <https://pubmed.ncbi.nlm.nih.gov.ucsf.idm.oclc.org/37154053/>
- Kanaya and colleagues identified mRNAs and biological pathways targeted by five microRNA biomarkers to elucidate potential mechanisms of risk and responses to the tested interventions. <https://pubmed.ncbi.nlm.nih.gov.ucsf.idm.oclc.org/37543292/>
- Kanaya and colleagues determine a pattern of metabolites associated with the Healthy Eating Index (HEI)-2015, which measures adherence to the Dietary Guidelines for Americans. <https://pubmed.ncbi.nlm.nih.gov.ucsf.idm.oclc.org/37271414/>
- Kanaya and colleagues assessed the impact of religion/spirituality on prevalent hypertension among ethnically diverse cohorts. <https://pubmed.ncbi.nlm.nih.gov.ucsf.idm.oclc.org/37265144/>
- Kanaya and colleagues explored the concordance between Dash Diet and hypertension in the South Asians Living in America (MASALA) Study. <https://pubmed.ncbi.nlm.nih.gov.ucsf.idm.oclc.org/37630801/>
- Kanaya and colleagues assess the mediating role of congregational neglect as a potential mechanism explaining the association between religious attendance and anxiety in U.S. South Asians. <https://pubmed.ncbi.nlm.nih.gov.ucsf.idm.oclc.org/37721667/>
- Kanaya and colleagues examined whether the association of DM with subclinical atherosclerosis assessed by coronary artery calcium (CAC) differs in South Asians versus other ethnic groups. <https://pubmed.ncbi.nlm.nih.gov.ucsf.idm.oclc.org/37795703/>
- Kanaya and colleagues explored associations between lipoprotein subfractions and prevalent and incident type two diabetes in two race/ethnically diverse cohort studies. <https://pubmed.ncbi.nlm.nih.gov.ucsf.idm.oclc.org/37777016/>
- Kanaya and colleagues examined relationships between resilience resources (optimism, social support, and neighborhood social cohesion) and cardiovascular disease incidence. <https://pubmed.ncbi.nlm.nih.gov.ucsf.idm.oclc.org/37442807/>

- Kanaya and colleagues described cardiovascular health by summarizing the Essential 9 score among South Asian adults. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37262988/>
- Maglalang, Yoo, and colleagues examines the help-seeking experiences of Asian American breast cancer survivors. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37532433/>
- Maglalang and colleagues assessed the whether medical mistrust, perceived discrimination, race impacted COVID-19 vaccine hesitancy. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/35913543/>
- Maglalang and colleagues examined the association between sexual minorities identification and recency of cannabis vaping and number of puffs. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37750356/>
- Ho, Karliner, and colleagues examined patient-physician communication about depressive symptoms during routine primary care visits with Chinese and Latino patients with and without language barriers. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37364381/>
- Tan and colleagues explored future app user interest and elicit feedback to improve the design, development, and usability of the LetSync app. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37624634/>
- Nguyen N and colleagues compared public perceptions of safety of cannabis vs tobacco smoke and evaluate how perceptions may be changing over time. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37566411/>
- Nguyen N and colleagues examined changes in young adults' perceived harms of tobacco and cannabis and their associations with use behavior during a period including both before and after legalization of cannabis. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37263178/>
- Nguyen N and colleagues examined associations between use of tobacco and/or cannabis with anxiety and depression. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37703257/>
- Nguyen P and colleagues describe a combination of distinct vascular stem/progenitor cells for neovascularization in ischemic disease. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37051932/>
- Nguyen P and colleagues explored the potential clinical usefulness of FDG-PET in determining vascular inflammation. <https://link.springer.com/content/pdf/10.1007/s12350-023-03250-2.pdf>
- Nguyen P and colleagues conducted a systematic review and meta-analysis assessing the utility of qualitative and quantitative stress cardiac magnetic resonance in the prognosis of patients with known or suspected coronary artery disease.
- Gomez and colleagues identified differences in time to treatment for AANHPI women in the United States with non-metastatic breast cancer. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37365415/>
- Gomez, Chu, and colleagues examined the impact of objective social and built neighborhood attributes on CVD risk in a cohort of female breast cancer survivors. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37096827/>
- Gomez and colleagues evaluated the association between racial representation in online content about prostate cancer and trust in the content and identify factors that influence trust. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37466938/>
- Park and colleagues demonstrated the usefulness of community-based geographical information system (GIS) to recruit older Asian Americans in an Alzheimer's disease study. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37536975/>
- Mahadevan and colleagues designed and implemented an IBD remote monitoring program, identified predictors of patient engagement, and determined who found the chat to be a valuable tool. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37586416/>
- Mahadevan and colleagues identified the inflammatory cells that contribute to colitis and respond to Vedolizumab. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/36711576/>
- Mahadevan and colleagues explored Tofacitinib concentrations in plasma and breastmilk of a lactating woman with ulcerative colitis. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37269871/>
- Mahadevan and colleagues compared the safety and effectiveness of tumor necrosis factor  $\alpha$  (TNF- $\alpha$ ) antagonists vs vedolizumab vs ustekinumab in patients with Crohn's disease in a multicenter cohort (CA-IBD). <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/36343846/>
- Mahadevan and colleagues conducted a review of the management of IBD in pregnancy and the safety of IBD therapies, including novel agents, with regard to both maternal and fetal health. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37002407/>

- Fukuoka and colleagues performed a literature review to identify feature selection methods and machine learning models for prediction of weight loss in a previously completed clinical trial of a behavioral intervention for weight loss in Filipinos at risk for type 2 diabetes. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/36600204/>
- Sy and colleagues conducted semi-structured key informant interviews with Filipino nurse and healthcare leaders in Hawai'i to provide community-driven guidance for future cancer prevention and control efforts. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37530122/>
- Sy and colleagues assessed the feasibility of oral cancer screening using existing dental health infrastructure in Palau. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37745775/>
- Sy and colleagues examine oral human papillomavirus infection among smokeless tobacco-using tribal women in Mysuru, India. [https://journals.lww.com/ijcm/fulltext/2023/48050/oral\\_human\\_papillomavirus\\_infection\\_among.23.aspx](https://journals.lww.com/ijcm/fulltext/2023/48050/oral_human_papillomavirus_infection_among.23.aspx)
- Chen CH and colleagues reviewed the data on the relationship between ALDH2 polymorphism, alcohol, and Alzheimer's Disease. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37693648/>
- Chen CH and colleagues reviewed the data on the implications of hydroxynoneal in Alzheimer's disease. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37693644/>
- Chen CH and colleagues examined the therapeutic potential of reducing toxic aldehyde levels by activating ALDH2 for metabolic diseases. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37749090/>
- Chen CH and colleagues evaluated the association between cannabis use and semen parameters in a cohort of Asian-American men with unknown fertility. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/36047080/>
- Tam and colleagues examined racial/ethnic differences in the associations between risky drinking and other drug use in adults with diabetes, hypertension, heart disease, or cancer. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37258041/>
- Chen E and colleagues interrogated the gut microbiome of mother-child dyads to compare high-versus-low prenatal social disadvantage, psychosocial stressors and maternal circulating cytokine cohorts. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37726348/>
- Galen and colleagues evaluate how well a multifaceted perceived utility model developed with pediatric populations applies to a diverse, adult population aged 18–49 at risk for hereditary cancer and propose new considerations for the model. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37607497/>
- Galen, Karliner, and colleagues identified interpretation challenges specific to exome sequencing and errors of potential clinical significance in the context of genetic counseling for adults at risk for a hereditary cancer syndrome. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/36938783/>
- Galen and colleagues examined the efficacy of a brief, online intervention designed to enhance genetic counseling students' patient-centered communication. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37301010/>
- Galen and colleagues assessed the impact of the Futuros Fuertes intervention on infant feeding, screen time, and sleep practices. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37211275/>
- Galen, Karliner, and colleagues explored patient experiences with family communication of genetic information in historically underserved populations. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37421176/>
- Chen I and colleagues conducted a systematic review and meta-analysis to assess the effectiveness of active test and treat strategies to reduce malaria transmission. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37661286/>
- Chen I and colleagues trialed two new vector control tools, a volatile pyrethroid spatial repellent (VPSR) and insecticide-treated clothing (ITC), amongst forest-exposed populations in Mondulkiri Province Cambodia to inform their potential use for eliminating forest malaria. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37658337/>
- Yen and colleagues investigated the effects of childhood residential mobility on older adult physical and mental health. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37013813/>
- Shim and colleagues examined the experiences of precision medicine research investigators and frontline research staff to understand how standard approaches to benefit are received, contested, and negotiated "on-the-ground." <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37442104/>

- Shin and colleagues explore the use of social and genetic concepts of difference in precision medicine research. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37771152/>
- Zamora and colleagues developed a patient-centered, interprofessional intervention to improve measurement of functional status for older veterans in primary care settings. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37616266/>
- Karliner and colleagues developed a novel tool, Lung Cancer Assessment of Risk and Education (LungCARE) to guide lung cancer screening decisions among eligible primary care patients. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37653203/>
- Karliner and colleagues evaluated the validity of a new rating tool, the Physician Oral Language Observation Matrix (POLOM)<sup>™</sup>, in assessing medical students' oral communication with Spanish-speaking standardized patients. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37670071/>
- Samsouk and colleagues summarized challenges and offers potential countermeasures to improve gastroenterological care for all patients. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37634855/>
- Khalili and colleagues evaluated changes in HBV RNA and hepatitis B core-related antigen (HBcrAg) levels, markers of transcriptional activity of covalently closed circular DNA (cccDNA), with HBeAg and HBsAg clearance, and compared them with changes in HBV DNA level among adult participants in the Hepatitis B Research Network (HBRN). <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/35850413/>
- Khalili and colleagues explored whether the expression of HBV markers differs between HBV-HIV co-infection vs. HBV mono-infection. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37278302/>
- Khalili and colleagues evaluated treatment with tenofovir (TDF) for 4 years ± an initial 6 months of peginterferon-α (PegIFN) after which treatment was withdrawn. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/36728214/>
- Khalili and colleagues assessed whether combination strategies that included treatment withdrawal enhanced HBsAg loss. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/36599136/>
- Sudhinaraset and colleagues called for standardization of person-centered sexual and reproductive health measurements. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37232021/>
- Sudhinaraset and colleagues developed the Person-Centered Integration of Support Persons (PC-ISP) concept and applied these in a facility-based survey. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37716939/>
- Raj and colleagues considered ways the informatics field can recognize institutional, systemic, and structural racism and propose the use of the Public Health Critical Race Praxis (PHCRP) to mitigate and dismantle racism in digital forms. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37403330/>
- Raj and colleagues evaluated the responsibilities of caregivers related to their relative's participation in Alzheimer's disease and related dementias clinical trials and examined how these responsibilities are communicated on clinicaltrials.gov. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37594028/>
- Burke and colleagues investigated the participation of advocacy coalitions in California's statewide sugar-sweetened beverage (SSB) tax policy debate. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37728321/>
- Serna and colleagues evaluated the association among race, ethnicity, insurance type, and fulfillment of permanent contraception requests. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37678912/>
- Nguyen TT and colleagues discussed the inclusion of social determinants of health into evaluations of quality and appropriateness of AI assistant-ChatGPT. <https://www-nature-com.ucsf.idm.oclc.org/articles/s41391-023-00720-z>
- Tseng and colleagues investigated the associations among cognitive decline, hypertension, dyslipidemia, and their combination in community-dwelling older people. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37095338/>
- Sarkar and colleagues evaluated rates of change over time in visits (in-person, telehealth) and between-visit interactions (telephone calls, patient portal messages) overall and by key patient characteristics. <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37713198/>
- Sarkar and colleagues characterized facilitators and barriers to telemedicine implementation among safety-net primary care clinics serving patients with limited English proficiency (LEP). <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37653210/>

- Sarkar and colleagues explored the usability and acceptability of virtual reality (VR) among a racially and ethnically diverse group of patients who experience chronic pain. <https://pubmed.ncbi.nlm.nih.gov.ucsf.idm.oclc.org/37449058/>
- Sarkar and colleagues leveraged two high-throughput tools to identify social determinants of health mappings to structured and unstructured patient data: PatientExploreR and Electronic Medical Record Search Engine
- Tung and colleagues implemented an intervention to increase nurse and healthcare provider use of interpreter services in an inpatient hospital unit and evaluated its immediate effects. <https://pubmed.ncbi.nlm.nih.gov.ucsf.idm.oclc.org/37647555/>
- Tung and colleagues assessed breast cancer knowledge and mammography screening use among Asian American women. <https://pubmed.ncbi.nlm.nih.gov.ucsf.idm.oclc.org/37556031/>
- Tseng and colleagues compared high-power, short duration radiofrequency ablation with standard power, standard duration radiofrequency ablation in patients undergoing pulmonary vein isolation. <https://pubmed.ncbi.nlm.nih.gov.ucsf.idm.oclc.org/37495318/>
