THE ARCH NEWSLETTER

FEBRUARY 2024

NEWS

CONGRATULATIONS TO DR. KARA ZAMORA!

ARCH member Dr. Kara Zamora graduated from the joint PhD program in Medical Anthropology (UCSF/UC Berkeley) in December 2023!

DR. JANE JIH APPOINTED TO THE ADVISORY COMMITTEE ON MINORITY HEALTH OF THE U.S. OFFICE OF MINORITY HEALTH

ARCH Co-Director Dr. Jane Jih is starting a 4-year term as a member of the U.S. Office of Minority Health Advisory Committee on Minority Health, advising the Deputy Assistant Secretary for Minority Health on improving the health of racial and ethnic minority populations.

ARCH MEMBERS TO PRESENT AT APA MEETING

ARCH members Drs. Phillip Yang (first author) and Janice Tsoh had a poster abstract accepted to the American Psychiatry Association Annual Meeting in New York City in May 2024 titled "Racial/Ethnic Disparities in Anxiety Disorder Development Post COVID-19 Infection and in

Remdesivir Treatment among Minorities with Anxiety Disorder."

GRANTS

UNIVERSITY OF SAN FRANCISCO RECEIVE AANAPISI AWARD

Drs. Melissa Canlas (Co-PI), Christine Yeh (Co-PI), and ARCH member Hsiu-Lan Cheng (Evaluator) from the University of San Francisco School of Education, have received an Asian American and Native American Pacific Islander-Serving Institutions (AANAPISI) award from the US Department of Education. This grant award will be used to develop an integrated Asian American and Pacific Islander (AAPI) Center for Educational Success (ACES). ACES will direct the implementation of 3 learning communities – faculty learning communities, staff and leadership communities, and student leadership development communities. More details [here](#).

NEXT 2024 ARCH MEETING

May 16, 2024 from 3-4:40 PM PST featuring speakers Dr. Ai Kubo, Research Scientist/Epidemiologist, Kaiser Permanente and Kent Woo, MSW, Executive Director, NICOS Chinese Health Coalition

ABSTRACTS REVIEWS

Compiled by Janet Chu

September 30, 2023 to December 31, 2023
ARCH Members Abstracts

- Park, Tsoh, Meyer, Kanaya and colleagues leveraged discrete choice experiment to identify preferences for recruitment strategies and messages to engage diverse AAPI adults in enrolling in a registry for dementia-related research: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37171018/>
- Jih, Shim, and colleagues described a rationale and process for developing a two-step systematic process for coding visual data, specifically photographs: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37669693/>
- Jih, Karliner, and colleagues determined barriers and facilitators to participation in non-English language proficiency assessment among primary care physicians: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37620723/>
- Ho, Jih, and colleagues demonstrated different interactional pathways for photo-based communication between patients and clinicians: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/35642446/>
- Chu, Sarkar, and colleagues performed a systematic review and meta-analysis to investigate the association between language discordance and hospital readmission and ED revisit rates: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/38160059/>
- Kanaya, Gomez, and colleagues conducted a review summarizing literature on structural and social determinants of health for Asian Americans, Native Hawaiians, and Pacific Islanders: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/38109517/>
- Kanaya and colleagues characterized differential gene expression in banked biospecimens from underactive adult participants who responded to a randomized clinical trial measuring the effects of lifestyle interventions on type 2 diabetes risk factors: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37929060/>
- Kanaya and colleagues examined the association of everyday discrimination with risk of obesity and the potential modifying effect of religious service attendance: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37921946/>
- Kanaya and colleagues examined associations between lipoprotein subfractions and prevalent and incident type 2 diabetes in two race/ethnically diverse cohort studies: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37777016/>
- Kanaya and colleagues examined relationships between resilience resources (optimism, social support, and neighborhood social cohesion) and cardiovascular disease (CVD) incidence and assessed potential effect-measure modification by psychosocial risk factors: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37442807/>
- Kanaya and colleagues examined associations of three stressors (discrimination, low social support, limited English proficiency) with depressive symptoms in South Asians: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/36940078/>
- Maglalang and colleagues examined the association between sexual minority identification and recency of cannabis vaping (the last occasion that a participant used their vape device with cannabis) and number of puffs (the count of puffs that the participant took during their most recent use of their vape device with cannabis): <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37750356/>
- Ho and colleagues systematically reviewed studies at the intersection of social scientific observational research and findings about complementary and integrative health communication between clinicians, patients, and caregivers in biomedical settings: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/36602254/>
- Young and colleagues explored the perspectives of parents of undiagnosed children enrolled in genomic diagnosis research regarding their motivations for enrolling their children, their understanding of the

potential burdens and benefits, and the extent to which their experiences ultimately aligned with or diverged from their original expectations: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37271495/>

- Sabado-Liwag and colleagues examined trends in noncigarette tobacco use among smoking susceptible and nonsusceptible adolescents from 2009-2021: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/38099902/>
- Sabado-Liwag and colleagues examined alcohol use (AU) among intersectional subgroups within a longitudinal cohort of predominantly Hispanic/Latino alternative high school (AHS) students in southern California: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/38085206/>
- Meyer and colleagues prospectively assessed the change in neuropsychiatric symptoms among people who develop cognitive impairment and have a history of post-traumatic stress disorder: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/38194584/>
- Meyer and colleagues examined the contribution of community disadvantage to racial disparities in cognition/cognitive change: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37817548/>
- Meyer and colleagues examined the association between early-life SES and adversity and late-life cross-sectional cognitive outcomes as well as global cognitive decline, hypothesizing that adulthood SES would mediate these associations: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/36880230/>
- Gomez and colleagues evaluated associations between groundwater exposures and kidney cancer incidence: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37287332/>
- Gomez and colleagues used census tract-level data to investigate neighborhood-level factors contributing to racial and ethnic group-specific COVID-19 case rates in California: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/36376642/>
- Mahadevan and colleagues determined the prevalence of HSIL and anal cancer among MSM patients with and without IBD referred for anal cancer screening: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37951596/>
- Mahadevan and colleagues provided information from the PIANO registry on maternal and fetal outcomes in patients exposed to the newer biologics ustekinumab (UST) and vedolizumab (VDZ): <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37796648/>
- Mahadevan and colleagues aimed to design and implement an IBD remote monitoring program, identify predictors of patient engagement, and determine who found the chat to be a valuable tool: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37586416/>
- Mahadevan and colleagues aimed to evaluate predictors and outcomes of disease activity after tofacitinib dose de-escalation in this population: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37187323/>
- Singh and colleagues developed a two-part radiologic grading method for standardized assessment of traumatic cerebral venous sinus thrombosis: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/38146071/>
- Fukuoka and colleagues presented a behavioral analytics approach for solving the coordinator's problem when the agents make decisions by maximizing utility functions that depend on prior system states, inputs, and other parameters that are initially unknown: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37554315/>
- Sy and colleagues conducted five semi-structured key informant interviews with Filipino nurse and healthcare leaders in Hawai'i to establish partnerships with the community, as well as provide community-driven guidance for future cancer prevention and control efforts: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37530122/>
- Saw and colleagues explored the relationship between integration (economic, linguistic, navigational, psychological, and social) and psychological distress among the Rohingya community in Chicago, and how it relates to age and gender: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37870791/>
- Chen C and colleagues characterize how esophageal squamous cell carcinoma and preneoplastic cells respond to alcohol exposure using cell lines, three dimensional organoids, and xenograft models: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37978873/>

- Chen C and colleagues investigated the underlying mechanisms and potential treatment for 4-hydroxynonenal (4-HNE) deleterious effects in heart failure: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37944136/>
- Joseph and colleagues reported on findings from facilitation discussions by the CHARM team, representing a multi-disciplinary, multi-institutional genomics implementation study, which were inspired by team science methodologies: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/38229898/>
- Joseph and colleagues assessed the acceptability of an online communication training program among genetic counseling graduate students: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37795757/>
- Joseph and colleagues synthesized lessons from CHARM that we believe illustrate the types of innovations that are needed to expand the reach and inclusivity of genomic medicine: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/38142673/>
- Joseph, Karliner, and colleagues explored experiences with family communication of genetic information in historically underserved populations: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37421176/>
- Joseph and colleagues conducted an embedded Ethical, Legal, and Social Implications (ELSI) study to examine if and how unaffected participants in a US population breast cancer screening trial understood and utilized polygenic risk scores, as part of a multifactorial risk score combining traditional risk factors with a genetic risk assessment, to make screening and risk-reduction decisions: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37311883/>
- Chen I and colleagues validated the Invitae Personalized Cancer Monitoring™ assay using 250 unique human specimens and nine commercial reference samples that generated 1349 whole exome sequencing and cell-free DNA (cfDNA)-derived libraries: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37632661/>
- Burke, Yen, and colleagues explored factors that contribute to pesticide exposure via the take-home pathway among small-scale Hmong farmers in the Central Valley: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37031353/>
- Gomez, Shim, and colleagues conducted a qualitative investigation to better understand patient and physician perceptions of factors influencing treatment decisions for low-risk prostate cancer: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/38053037/>
- Shim and colleagues providing investigator and researcher perspectives on and questions about the assumed value of return of results in precision medicine research: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37962912/>
- Zamora and colleagues explored actionable access barriers that correlate with and predict patients' lack of trust in providers and in the health care system: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/38127502/>
- Karliner and colleagues described current approaches to recruitment, training and language assessments of Spanish-speaking standardized patients and proposed strategies to ensure that medical Spanish encounters authentically reflect Spanish-speaking patients: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37947832/>
- Karliner and colleagues provided the protocol for an embedded, pragmatic clinical trial (ePCT) implementing eRADAR (electronic health record Risk of Alzheimer's and Dementia Assessment Rule which uses information in the electronic health record to identify patients who may have undiagnosed dementia) in two healthcare systems to determine whether an intervention using eRADAR increases dementia diagnosis rates and to examine the benefits and harms experienced by patients and other stakeholders: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37858616/>
- Karliner and colleagues developed a novel tool, Lung Cancer Assessment of Risk and Education (LungCARE) to guide lung cancer screening decisions among eligible primary care patients: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37653203/>
- Samsouk and colleagues examined the association between gastric intestinal metaplasia and dyspepsia: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37886477/>

- Samsouk and colleagues summarized challenges and offered potential countermeasures to improve gastroenterological care for all patients: <https://www.sciencedirect-com.ucsf.idm.oclc.org/science/article/pii/S1542356523006547?via%3Dihub>
- Khalili and colleagues examined stigma, barriers, and factors associated with motivation to adhere to lifestyle modification in a diverse and vulnerable population with fatty liver disease: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/38090690/>
- Khalili and colleagues evaluated trends in alcohol use among US Veterans prior to, during, and following the onset of the COVID-19 pandemic: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/38052382/>
- Khalili and colleagues evaluated patient-reported liver symptoms during treatment for chronic hepatitis B viral (HBV) infection and associations between changes in symptoms and levels of alanine aminotransferase (ALT) and viral markers: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37804353/>
- Khalili and colleagues examined whether HBV RNA and hepatitis B core-related antigen (HBcrAg), two specialized virological markers proposed to reflect the activity of covalently closed circular DNA, may improve the ability to predict not sustained inactive carrier phase, spontaneous alanine aminotransferase (ALT) flare, HBeAg loss, and HBsAg loss: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37074026/>
- Sudhinaraset and colleagues examined the economic, social, and health system factors associated with home births in Kenya: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37821855/>.
- Sudhinaraset and colleagues explored how language access may impact immigrant women's experiences of maternity care, particularly by race and ethnicity: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37244759/>
- Sudhinaraset and colleagues aimed to understand whether a quality improvement (QI) intervention could improve person-centred maternity care (PCMC) experiences for women delivering in public health facilities in Kenya: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/36857118/>
- Kim and colleagues assessed US smokers' perceptions of cigarette package inserts at the conclusion of a two-week randomized trial on cigarette labeling where half of participants were exposed to insert messages (two response-efficacy messages and two self-efficacy messages) in their packs: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37450334/>
- Kim and colleagues investigated if and how tobacco companies, including those that exclusively sell e-cigarettes and other vape devices, are using anime to market vaping products: <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC10646938/>
- Raj and colleagues discussed policies related to offering culturally inclusive foods in long-term care and hospital facilities and proposes priority areas for integrating culturally inclusive foods in these facilities through policy and practice: <https://www.sciencedirect-com.ucsf.idm.oclc.org/science/article/pii/S2212267223017677?via%3Dihub>
- Raj and colleagues sought to understand family caregivers' experiences and challenges navigating and managing their older Asian American relative's diet: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37991403/>
- Raj and colleagues provided insights regarding hospital discharge planners' need for more information when referring patients to home health care during the COVID-19 pandemic: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37953913/>
- Raj and colleagues evaluate the responsibilities of caregivers related to their relative's participation in Alzheimer's disease and related dementias clinical trials: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37594028/>
- Raj and colleagues identified perceived facilitators and barriers to implementing culturally inclusive foods into hospitals and long-term care (LTC) from the perspectives of registered dietitians and food service directors: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37247822/>
- Burke and colleagues sought to understand how organizational aspects of the agricultural industry and broader socioeconomic and political conditions shaped farmworkers' COVID-19 workplace safety during the pandemic: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/38063568/>

- Zhang and colleagues explored the effects of social support on social media on Asian college students' intention to participate in PA based on the theory of planned behavior: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/38025655/>
- Zhang and colleagues measured college students' coping strategies and change of lifestyle during the COVID-19 pandemic: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/34449287/>
- Nguyen TT and colleagues provided practical guidance on using social media data for measuring public sentiment: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37756290/>
- Nguyen TT explored the relationship between sundown town status, COVID-19 local risk index and racial and ethnic diversity: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37363357/>
- Nguyen TT and colleagues described experiences of racism during pregnancy and birthing among Asian and Pacific Islander, Black, Latina, and Middle Eastern Women: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/36449130/>
- Ivey and colleagues publish a scoping review of wildfire smoke risk communications: issues, gaps, and recommendations: <https://pubmed.ncbi.nlm.nih.gov/38281022/>
- Sarkar and colleagues analyzed lactation support policies at the top 50 US schools of medicine: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37889493/>
- Sarkar and colleagues characterized facilitators and barriers to telemedicine implementation among safety-net primary care clinics serving patients with limited English proficiency (LEP): <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37653210/>
- Sarkar and colleagues examined the usability and acceptability of virtual reality (VR) among a racially and ethnically diverse group of patients who experience chronic pain: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37449058/>
- Tung and colleagues evaluated (a) perceived barriers and influential others trusted for advice regarding HPV vaccination and (b) factors (i.e. HPV vaccination, acculturation) related to barriers and influential advisors among 18- to 26-year-old Chinese students attending U.S. colleges: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37906530/>
- Jia and colleagues systematically reviewed and synthesized the evolving roles and expectations of inpatient palliative care specialists in response to COVID-19: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/38100009/>
- Jia and colleagues examined the impact of a point-of-care ultrasound (POCUS) program among people with ascites receiving home-based palliative care by measuring the association of POCUS with ascites-related days spent out of the home, compared with outcomes before POCUS implementation: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/38000441/>
- Jia and colleagues explored the association between the primary decision-makers and the intensity of care given to patients with advanced cancer in China: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/36598338/>
- Tseng and colleagues compared incidence and causes of sudden death by autopsy among housed and unhoused individuals in San Francisco County: <https://pubmed-ncbi-nlm-nih-gov.ucsf.idm.oclc.org/37870865/>
