NEWS

DR. EVELYN HO DELIVERED THE 2024 JOSEPHINE B. JONES LECTURE AT THE UNIVERSITY OF COLORADO BOULDER

ARCH member Dr. Evelyn Ho delivered the 2024 Josephine B. Jones Lecture at the University of Colorado Boulder. Dr. Ho's talk was entitled *From Deep Listening to Praxis: The Promise of Social Interaction Research for Promoting Health Equity*.

DR. PHILLIP YANG RECEIVES FELLOWSHIP

Dr. Phillip Yang received two American Psychiatry Association Fellowships: the one-year SAMHSA Minority Fellowship and the two-year Child & Adolescent Psychiatry Fellowship. Dr. Yang chose to pursue the Child & Adolescent Psychiatry Fellowship which will be during the 2024-2026 academic years.

NEXT 2024 ARCH MEETING

Thursday, May 16, 2024 from 3-4:40 PM PST featuring speakers

- Dr. Ai Kubo, Research Scientist/Epidemiologist, Kaiser Permanente with a presentation entitled "Entitled Subgroup Differences in Timing of Pubertal Onset among Asian and Native Hawaiian/Pacific Islander Adolescents"
- Jessica Lwi, MSW intern, Sianne Susbilla MSW intern, Michael S. Liao, MSW, Director of Programs, and Kent Woo, MSW, Executive Director, NICOS Chinese Health Coalition with a presentation entitled "Collective Impact for Health: The NICOS Chinese Health Coalition Model"

ABSTRACTS REVIEWS

Compiled by Janet Chu

December 31, 2023 to March 31, 2024

ARCH Members Abstracts

- Sabado-Liwag, Kwan, Sy, Choi, Tsoh and colleagues provided insights on Asian American and Native Hawaiian and Pacific Islander Visibility and data equity from the NIH RADx-UP, a consortium of research projects studying COVID-19 behavioral (vaccine and testing) patterns in communities across the United States: <https://pubmed.ncbi.nlm.nih.gov/38547462/>
- Tsoh and colleagues developed and evaluated the feasibility, acceptability, and preliminary effectiveness of a novel smoking cessation program for community health centers that serve low income populations with unmet social and behavioral health needs: <https://pubmed.ncbi.nlm.nih.gov/38448242/>
- Choi, Park, Tsoh and colleagues explored caregiving experiences and potential cultural influences among Asian Indian, Chinese, Korean, and Vietnamese family care partners of persons living with dementia: <https://pubmed.ncbi.nlm.nih.gov/37655598/>
- Meyer, Tsoh, Park, and colleagues elicited Vietnamese Americans' perspectives on culturally appropriate recruitment into a new research registry: Collaborative Approach for Asian Americans, Native Hawaiians, and Pacific Islanders (AANHPIs) Research and Education (CARE): <https://pubmed.ncbi.nlm.nih.gov/38422998/>
- Park and colleagues report on the Asian Cohort for Alzheimer's Disease (ACAD) pilot study on genetic and non-genetic risk factors for Alzheimer's disease among Asian Americans and Canadians: <https://pubmed.ncbi.nlm.nih.gov/38215053/>
- Wang, Chu, Gomez, Nguyen TT, Tsoh, and colleagues examined cancer supportive care needs, identified profiles of supportive care needs, and examined whether needs profiles are associated with quality of life among Asian American adults: <https://pubmed.ncbi.nlm.nih.gov/38351528/>
- Saw, Yellow Horse, Yi, Tsoh and colleagues examined the co-occurrence of COVID-19-related anti-Asian discrimination and collective racism, economic stressors, and mental and physical health challenges for Asians/Asian Americans during the COVID-19 pandemic: <https://pubmed.ncbi.nlm.nih.gov/36692660/>
- Saw, Tsoh, Yellow Horse, and colleagues examined subgroup differences in rates of personal experience of discrimination and COVID-related collective racism and how each is associated with mental and physical health for Asian Americans: <https://pubmed.ncbi.nlm.nih.gov/36602751/>
- Chu and colleagues examined quality of care among primary care patients with NAFLD cirrhosis: <https://pubmed.ncbi.nlm.nih.gov/37890572/>
- Yellow Horse, Saw, and colleagues assessed the role of social support on the impact of discrimination on psychological distress for Asian American women and men: <https://pubmed.ncbi.nlm.nih.gov/37768606/>
- Kanaya and colleagues investigated factors predicting weight and waist gain in a longitudinal cohort of US South Asians, a high-risk group for developing obesity-related complications: <https://pubmed.ncbi.nlm.nih.gov/38585953/>
- Kanaya and colleagues assessed if the Life's Simple 7 metrics predicted coronary artery calcium (CAC) incidence and progression in asymptomatic South Asian adults compared with four other racial/ethnic groups: <https://pubmed.ncbi.nlm.nih.gov/38583288/>
- Kanaya and colleagues quantified the contributions of social and psychosocial factors to racial/ethnic differences in cardiovascular health: <https://pubmed.ncbi.nlm.nih.gov/38322182/>
- Kanaya and colleagues investigated correlates of anti-S1 antibody response following COVID-19 vaccination in a U.S. population-based meta-cohort of adults participating in longstanding NIH-funded cohort studies: <https://pubmed.ncbi.nlm.nih.gov/38374032/>
- Kanaya and colleagues determined whether total bilirubin was associated with prevalent and incident T2D in U.S. South Asians: <https://pubmed.ncbi.nlm.nih.gov/38324554/>

- Kanaya and colleagues derived metabolite risk scores for ectopic adiposity and assess associations with incident T2D in South Asians: <https://pubmed.ncbi.nlm.nih.gov/38245659/>
- Kanaya and colleagues compare coronary artery cross-sectional area among asymptomatic South Asian, White, and Black participants: the MASALA and CARDIA studies: <https://pubmed.ncbi.nlm.nih.gov/38486153/>
- Mukherjea and colleagues conducted a scoping review to assess the extent to which measures of structural racism are used in research with Asian Americans and Native Hawaiian/Pacific Islanders: <https://pubmed.ncbi.nlm.nih.gov/38539020/>
- Martin-Giacalone determined the efficacy of clinical (whole) exome sequencing in cases of nonisolated microphthalmia, anophthalmia, and coloboma (MAC) and to identify new MAC phenotypic expansions: <https://pubmed.ncbi.nlm.nih.gov/38502138/>
- Martin-Giacalone assessed whether cancer-predisposition variants (CPVs) are associated with outcomes among children with rhabdomyosarcoma: <https://pubmed.ncbi.nlm.nih.gov/38546643/>
- Maglalang and colleagues assessed the harm reduction potential of e-cigarettes and oral nicotine pouches among smokers with low socioeconomic status: <https://pubmed.ncbi.nlm.nih.gov/38447095/>
- Maglalang and colleagues examined the association between sexual minority identification and recency of cannabis vaping and number of puffs: <https://pubmed.ncbi.nlm.nih.gov/37750356/>
- Hseih and colleagues explore the landscape of direct-to-consumer genetic testing in reproductive health contexts: <https://pubmed.ncbi.nlm.nih.gov/38317624/>
- Kim and colleagues conducted a systematic review synthesizing psychosocial and behavioral interventions incorporating culture with the goal of examining their benefit for understudied and medically underserved populations with advanced and metastatic cancer: <https://pubmed.ncbi.nlm.nih.gov/38472713/>
- Kim and colleagues examined the literature on historical trauma (HT) in relation to US ethn racial groups by defining HT, providing a background for its development, and describing critiques of the concept: <https://pubmed.ncbi.nlm.nih.gov/38271636/>
- Chang and colleagues tested the safety and efficacy of NLY01-a brain-penetrant, pegylated, longer-lasting version of exenatide (a glucagon-like peptide-1 receptor agonist) that is believed to be anti-inflammatory via reduction of microglia activation-in Parkinson's disease: <https://pubmed.ncbi.nlm.nih.gov/38101901/>
- Young and colleagues conducted an in-depth qualitative study to better understand the factors that impact communication and cascade genetic testing for pathogenic variants (PVs) in BRCA1 and BRCA2 in Asian families: <https://pubmed.ncbi.nlm.nih.gov/38504135/>
- Sabado-Liwag and colleagues examined trends in noncigarette tobacco use among smoking susceptible and nonsusceptible adolescents from 2009-2021: <https://pubmed.ncbi.nlm.nih.gov/38099902/>
- Nguyen N and colleagues characterized co-use patterns of tobacco and cannabis based on temporal proximity and describe preferred products and motives for each pattern in order to improve co-use surveillance: <https://pubmed.ncbi.nlm.nih.gov/38281461/>
- Nguyen N and colleagues compared the number of cigarettes smoked on different days based on co-use patterns of cigarettes and alcohol or cannabis: <https://pubmed.ncbi.nlm.nih.gov/38547786/>
- Nguyen N and colleagues compared population-based disease odds for e-cigarettes and dual use vs cigarettes: <https://pubmed.ncbi.nlm.nih.gov/38411454/>
- Nguyen N and colleagues aimed to identify baseline factors associated with cigarette smoking abstinence among young adult smokers enrolled in a real-world social media-based smoking cessation program: <https://pubmed.ncbi.nlm.nih.gov/38366340/>
- Meyer and colleagues conducted a scoping review to map racial and ethnic healthcare disparities for persons living with dementia: <https://pubmed.ncbi.nlm.nih.gov/38265164/>
- Meyer and colleagues examined the association between a more comprehensive set of psychological characteristics and cognitive performance in a diverse cohort of older adults: <https://pubmed.ncbi.nlm.nih.gov/38330372/>
- Meyer and colleagues examined the contribution of community disadvantage to racial disparities in cognition/cognitive change: <https://pubmed.ncbi.nlm.nih.gov/37817548/>

- Meyer and colleagues characterized differences between caregivers of those with mild cognitive impairment versus those with dementia: <https://pubmed.ncbi.nlm.nih.gov/38277636/>
- Meyer and colleagues aimed to prospectively assess the change in neuropsychiatric symptoms among people who develop cognitive impairment and have a history of post-traumatic stress disorder (PTSD): <https://pubmed.ncbi.nlm.nih.gov/38194584/>
- Nguyen P and colleagues conducted a systematic review and meta-analysis assessing the utility of qualitative and quantitative stress cardiac magnetic resonance in the prognosis of patients with known or suspected coronary artery disease: <https://pubmed.ncbi.nlm.nih.gov/37632499/>
- Gomez and colleagues explored the perspectives of Black patients with prostate cancer on the importance of racial representation in online content and other factors influencing trust: <https://pubmed.ncbi.nlm.nih.gov/38329047/>
- Gomez and colleagues explored the perspectives of Black patients on the use and impact of the internet for their prostate cancer care: <https://pubmed.ncbi.nlm.nih.gov/38366884/>
- Gomez and colleagues discuss the importance of the next generation of epidemiologic cohorts for cancer in order to address the roles of structural and social determinants of health: <https://www.nature.com/articles/s41568-023-00652-9>
- Mahadevan and colleagues examined the Crohn's disease exclusion diet as treatment for medication refractory disease: <https://link.springer.com/article/10.1007/s10620-024-08345-5>
- Mahadevan and colleagues identified the inflammatory cells that contribute to colitis and are affected by Vedolizumab (VDZ): <https://pubmed.ncbi.nlm.nih.gov/38374043/>
- Mahadevan and colleagues assessed pregnancy and infant outcomes, cord blood, and breast milk concentrations for tofacitinib in pregnancy: <https://pubmed.ncbi.nlm.nih.gov/38309493/>
- Mahadevan and colleagues evaluated pregnancy outcomes in patients with ulcerative colitis, Crohn's disease, or multiple sclerosis and in healthy volunteers treated with ozanimod: <https://pubmed.ncbi.nlm.nih.gov/38267826/>
- Mahadevan, Somsouk, and colleagues determined the impact of changes in healthcare delivery during the COVID-19 pandemic on patients with inflammatory bowel disease (IBD), in both well-resourced and vulnerable populations: <https://pubmed.ncbi.nlm.nih.gov/36943305/>
- Singh and colleagues developed a two-part radiologic grading method for standardized assessment of traumatic cerebral venous sinus thrombosis: <https://pubmed.ncbi.nlm.nih.gov/38146071/>
- Fukuoka and colleagues examined the association between physical activity barriers and depressive symptoms, and identify types of barriers in physically inactive community-dwelling women: <https://pubmed.ncbi.nlm.nih.gov/38516653/>
- Chen CH and colleagues characterized how esophageal squamous cell carcinoma and preneoplastic cells respond to alcohol exposure using cell lines, three-dimensional organoids and xenograft models: <https://pubmed.ncbi.nlm.nih.gov/37978873/>
- Chen CH and colleagues examined neurofilament light chain levels in patients with alcohol dependence and healthy controls: <https://pubmed.ncbi.nlm.nih.gov/37314537/>
- Joseph and colleagues assessed whether a letter is non-inferior to telephone genetic counseling to inform participants with no personal or family history of cancer of their normal results: <https://pubmed.ncbi.nlm.nih.gov/38190737/>
- Chen I and colleagues assessed the health, cognitive and socioeconomic impact of two strategies for detecting and treating low-density malaria infections in a low transmission setting: <https://pubmed.ncbi.nlm.nih.gov/38538037/>
- Yen, Burke, Shim and colleagues employed quantitative social network methods in addition to in-depth interviews and observations, with a explore supportive relationships among people experiencing chronic illness and social marginalization: <https://pubmed.ncbi.nlm.nih.gov/38512135/>
- Shim and colleagues illustrated negotiations within and between research teams as genomic investigators deliberate on the relevance of race and genetic ancestry for different analyses and contexts: <https://pubmed.ncbi.nlm.nih.gov/37771152/>
- Zamora and colleagues identified actionable access barriers that correlate with and predict patients' lack of trust in providers and in the health care system: <https://pubmed.ncbi.nlm.nih.gov/38127502/>

- Karliner and colleagues examined PCPs' and geriatricians' perspectives on clinical needs and optimal approaches to care for middle-aged patients with functional impairment: <https://pubmed.ncbi.nlm.nih.gov/38489004/>
- Karliner and colleagues examined whether secure messaging use differs among older patients with diabetes based on the involvement of care partner proxies: <https://pubmed.ncbi.nlm.nih.gov/38335020/>
- Karliner and colleagues investigated the probability of depression screening by visit type and by patient demographic characteristics in a large health system during the early COVID-19 pandemic: <https://pubmed.ncbi.nlm.nih.gov/38345822/>
- Karliner and colleagues examined the relationship between the stressors and resources of rural caregivers of persons living with dementia and their experience of depression, stress, and COVID-19: <https://pubmed.ncbi.nlm.nih.gov/37897201/>
- Karliner and colleagues evaluated the Language Access Systems Improvement (LASI) initiative's impact on professional interpreter utilisation in primary care and to explore patient and clinician perspectives on professional interpreter use: <https://pubmed.ncbi.nlm.nih.gov/38176864/>
- Sarkar, Somsouk, and colleagues reported that electronic coding for abnormal fecal immunochemical test is associated with increased colonoscopy completion: <https://pubmed.ncbi.nlm.nih.gov/38488169/>
- Khalili and colleagues aimed to assess patient satisfaction with hepatology-related telemedicine (telehepatology) for delivery of fatty liver disease (FLD) care in a safety-net healthcare system: <https://pubmed.ncbi.nlm.nih.gov/38217682/>
- Khalili and colleagues evaluated trends in alcohol use among US Veterans prior to, during, and following the onset of the COVID-19 pandemic: <https://pubmed.ncbi.nlm.nih.gov/38052382/>
- Khalili and colleagues examined the associations of alcohol-associated cirrhosis etiology and problematic drinking with liver disease QoL (LDQoL): <https://pubmed.ncbi.nlm.nih.gov/38315141/>
- Khalili and colleagues aimed to characterize scenarios where magnetic resonance elastography (MRE) of the liver was ordered and its impact on clinical course and management: <https://pubmed.ncbi.nlm.nih.gov/38242967/>
- Khalili and colleagues assessed adherence to the US Liver Imaging Reporting and Data System (LI-RADS) recommendations for hepatocellular carcinoma (HCC) surveillance and associated patient-level factors in a vulnerable, diverse patient sample: <https://pubmed.ncbi.nlm.nih.gov/38214600/>
- Chao and colleagues described seven guiding principles, along with organizational goals, strategies, and reflections to advance integrative health equity: <https://pubmed.ncbi.nlm.nih.gov/38327738/>
- Sudhinaraset and colleagues examined the link between intimate partner violence (emotional, physical, and sexual) and two outcomes: postpartum healthcare use and access to family planning: <https://pubmed.ncbi.nlm.nih.gov/38409006/>
- Sudhinaraset and colleagues examined the experiences of undocumented Asian and Latinx young adults living in California in applying for Disaster Relief Assistance for Immigrants program through framework of administrative burden: <https://pubmed.ncbi.nlm.nih.gov/38425463/>
- Raj and colleagues assess patients' comfort with clinicians sharing information about social determinants of health: <https://pubmed.ncbi.nlm.nih.gov/38393613/>
- Raj and colleagues explore organizational and policy challenges and priorities for integrating family care partners into the healthcare team: <https://pubmed.ncbi.nlm.nih.gov/38262018/>
- Raj and colleagues compared the mental health outcomes of US-born with immigrant caregivers of adult care recipients: <https://pubmed.ncbi.nlm.nih.gov/38354351/>
- Raj and colleagues examined when and why unpaid caregivers use respite services: <https://pubmed.ncbi.nlm.nih.gov/38298084/>
- Raj and colleagues evaluated patient characteristics associated with telehealth use and evaluated patients' motivations for using telehealth: <https://pubmed.ncbi.nlm.nih.gov/38271582/>
- Burke and colleagues described how promotoras and community health workers helped to promote access to COVID-19 information, testing, and vaccination: <https://pubmed.ncbi.nlm.nih.gov/38207262/>
- Burke and colleagues investigated the participation of advocacy coalitions in California's statewide sugar-sweetened beverage (SSB) tax policy debate: <https://pubmed.ncbi.nlm.nih.gov/37728321/>

- Yang and colleagues studied biological heterogeneity and clinical outcomes in a multi-institutional platform randomized controlled trial of adults with severe COVID-19 hypoxemic respiratory failure (I-SPY COVID): <https://pubmed.ncbi.nlm.nih.gov/38383504/>
- Ivey and colleagues conducted a scoping review identifying peer-reviewed studies about wildfire smoke risk communications to identify gaps in research and evaluation of communications and programs that seek to educate the public: <https://pubmed.ncbi.nlm.nih.gov/38281022/>
- Nguyen Thu and colleagues examined how racism influences life experiences from the perspectives of Asian & Pacific Islander, Black, Latina, and Middle Eastern women: <https://pubmed.ncbi.nlm.nih.gov/38596122/>
- Sarkar and colleagues examined near-miss events identified by primary care physicians in which taking additional time improved patient care or prevented harm: <https://pubmed.ncbi.nlm.nih.gov/38360962/>
- Tung and colleagues assessed breast cancer knowledge and mammography screening behaviors, and identified the factors related to the transtheoretical model (TTM) stages of change in relation to mammography utilization among Asian American women aged 40 and older: <https://pubmed.ncbi.nlm.nih.gov/37556031/>
- Tseng W and colleagues aimed to understand the influences of interpersonal, environmental, and situational factors on the perceptions and considerations of individuals involved in home-based pulmonary rehabilitation for patients with chronic lung disease: <https://pubmed.ncbi.nlm.nih.gov/38452366/>
- Tseng W and colleagues examined the actual conditions of older patients receiving home medical care after hospitalization over a period of 2 years in Japan: <https://pubmed.ncbi.nlm.nih.gov/38267253/>
- Tseng W and colleagues assessed the burden of psychological distress among Pacific Islanders and its associations with demographic, sociocultural, and health factors: <https://pubmed.ncbi.nlm.nih.gov/36745263/>
- Jia and colleagues conducted a systematic review synthesizing the evolving roles and expectations of inpatient palliative care specialists in response to COVID-19: <https://pubmed.ncbi.nlm.nih.gov/38100009/>
- Jia and colleagues examined the impact of a point-of-care ultrasound (POCUS) program among people with ascites receiving home-based palliative care by measuring the association of POCUS with ascites-related days spent out of the home, compared with outcomes before POCUS implementation: <https://pubmed.ncbi.nlm.nih.gov/38000441/>
- Tseng Z and colleagues explored mechanical dispersion discriminates between arrhythmic and nonrhythmic sudden death: <https://pubmed.ncbi.nlm.nih.gov/38363275/>
- Tseng Z and colleagues examined global cardiac electrophysiologic changes by acute alcohol exposure: <https://pubmed.ncbi.nlm.nih.gov/38295539/>
- Qamar and colleagues highlighted key areas in which institutional administration can take actionable steps to dedicate the necessary support and resources to proposed and ongoing programs, foster an equitable campus culture, and be advocates for policies at the state and federal level that promote students' food security: <https://pubmed.ncbi.nlm.nih.gov/38546738/>
- Qamar and colleagues explored how proposed cuts for the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) would create barriers within the social determinants of health that contribute to disparities in health outcomes of WIC recipients: <https://pubmed.ncbi.nlm.nih.gov/38278640/>
