

ARCHIVE

THE ARCH NEWSLETTER

FEBRUARY 2025

NEWS

DR. ARNAB MUKHERJEA NAMED DIRECTOR OF THE ASIAN AMERICAN, NATIVE HAWAIIAN, AND PACIFIC ISLANDER MIDDLE LEADERSHIP ACADEMY FOR THE CSU SYSTEM

ARCH member Arnab Mukherjea, DrPH, MPH was named [Director of the Asian American, Native Hawaiian, and Pacific Islander Middle Leadership Academy for the CSU system](#). More details [here](#).

DR. JACQUELINE KIM NAMED NCI EIAP SCHOLAR

ARCH member Jacqueline Kim, PhD named one of 25 National Cancer Institute Early Investigator Advancement Program scholar for this year.

CONFERENCES

ARCH member Angela Sy, DrPH had the following conference presentations:

- Roberts, KJ, Ogbagiorgis, W, **Sy, A**, Williams-Blangero, S, Stewart, LMV, Manusov, E, Fernandez, SB, Clarke, RD, Madden, EB. Increasing the Diversity of the Genomic Workforce : Designing Evaluation Plans to Maximize Impact. American Society of Human Genetics conference. Poster presentation, November 8, 2024
- Giancola, S, Stevenson, J, Culane, M, **Sy, A**, Morrison, KA, Karpyn, A, Manson, SM, Baker, J, Kaholokula, K. Amplifying the voices of program partners to advance health equity and social justice across NIH Centers for Clinical and Translational Research. Oral presentation, American Evaluation Association-Evaluation 2024, October 2024, Portland, OR.

ARCH member Jacqueline Kim, PhD and lab have the following conference presentations:

- American Psychosocial Oncology Society 22nd Annual Conference, Pittsburgh, PA. *Trauma, Anxiety, and Depression in Asian American Metastatic Cancer Survivors*. Invited Health Equity Scholars Plenary presentation, Wednesday, March 5, 2025.
- 82nd Annual Meeting of the Society for Biopsychosocial Science and Medicine (SBSM), Seattle, WA. *The Vietnamese Adult STRAIN: Psychometric Properties and Predictive Utility*, Oral paper presentation, Thursday, March 20, 2025 in the Pain in Biopsychosocial Science session.
- Society of Behavioral Medicine Annual Meeting and Scientific Sessions, San Francisco, CA. *Prior trauma predicts psychological symptoms in Asian Americans with metastatic cancer*. Poster Session, Thursday, March 27 from 5 to 5:50pm. and *Cultural Adaptation of Psychotherapy for Mandarin- and Vietnamese-Speaking Metastatic Cancer Patients: Perspectives from Bicultural Healthcare Professionals*. Poster Session, Friday, March 28, 11:00 AM-11:50 AM

INTERNS

ARCH member Supriya Misra, ScD was matched with Jenny Mai at Rutgers as an ARCH research intern. Jenny is now conducting research on Asian American mental health with Dr. Misra and was selected to participate in the NORC Equity Scholars program at the University of Chicago.

GRANTS

DR. AI KUBO RECEIVES NIDDK R01

Congratulations to ARCH member Ai Kubo, PhD along with ARCH member co-investigator Alka Kanaya MD for receiving a NIDDK R01 entitled “Population-based Incidence, Time Trends, and Early Life Factors Associated with Type 2 Diabetes Among Asian American, Native Hawaiian, and Pacific Islander Adolescents and Young Adults.”

ARCH MEETINGS

The next ARCH meeting is on Thursday, February 20, 2025 at 2:30 - 4:00 PM (Pacific).

Agenda:

2:30-3 PM Members (and invited guests) only meeting

3-4 PM Presentations

* Invisibility Stigma among Asian Americans and Pacific Islanders - Judy Tan, PhD

* Parenting for Emotional Wellness: A Virtual Approach for Filipino American Families Across California - Joyce R. Javier, MD, MPH, MS, FAAP

Zoom: <https://ucsf.zoom.us/j/96175885853?pwd=fwZmhZRbCnVZacySGufxiOEbDMw4NJ.1>

Future ARCH meeting dates: May 1, 2025, August 21, 2025 and November 13 or 20, 2025

ABSTRACTS REVIEWS

Compiled by Dr. Janet Chu

September 30, 2024 to December 31, 2024

ARCH Members Abstracts

- Karliner, Nguyen T and colleagues analyzed inequities in pain assessment and management for hospitalized older adults focusing on demographic and geriatric-related variables: <https://pubmed.ncbi.nlm.nih.gov/38997213/>
- Choi, Park, Tsoh and colleagues aimed to explore attitudes toward physical activity behaviors in the context of dementia caregiving among Asian Indian, Chinese, Korean, and Vietnamese American family caregivers of persons living with dementia: <https://pubmed.ncbi.nlm.nih.gov/39523131/>
- Tsoh and colleagues examined the association between cigarette smoking and COVID-19 hospitalization with consideration of cannabis use: <https://pubmed.ncbi.nlm.nih.gov/39429806/>
- Jih, Karliner, and colleagues investigated physician perspectives on using direct clinical observation as an alternative form of assessment of their non-English language skills: <https://pubmed.ncbi.nlm.nih.gov/39799071/>
- Jih and colleagues explored utilization patterns of an after-hours physician triage and advice telephone service in an academic adult primary care practice; <https://pubmed.ncbi.nlm.nih.gov/39707089/>
- Jih, Chinn, and colleagues examined patient generated photos as a means of gaining context about patient medication practices: <https://pubmed.ncbi.nlm.nih.gov/39367289/>
- Kanaya and colleagues evaluated the association of sex-specific diastolic blood pressure and coronary artery calcium score among South Asian American adults: <https://pubmed.ncbi.nlm.nih.gov/39625052/>
- Kanaya and colleagues calculated a Dietary Approaches to Stop Hypertension dietary score (categorized as low, moderate, and high) to examine the associations of Dietary Approaches to Stop Hypertension diet adherence with coronary artery calcification after a 5-year follow up: <https://pubmed.ncbi.nlm.nih.gov/39587996/>
- Kanaya and colleagues evaluated ASCVD risk associated with each risk-enhancing factor and commonly collected social determinants of health including education, income, and employment status, and to assess if adding risk-enhancing factors and SDOH to the Pooled Cohort Equations improve ASCVD risk prediction: <https://pubmed.ncbi.nlm.nih.gov/39453943/>
- Kanaya and colleagues identified cardiometabolic risk profiles among South Asians using indicators of acculturation: <https://pubmed.ncbi.nlm.nih.gov/39440183/>
- Kanaya and colleagues examined the association of everyday discrimination with risk of obesity and the potential modifying effect of religious service attendance: <https://pubmed.ncbi.nlm.nih.gov/37921946/>
- Kanaya and colleagues assessed the mediating role of congregational neglect as a potential mechanism explaining this association: <https://pubmed.ncbi.nlm.nih.gov/37721667/>
- Martin-Giacalone and colleagues conducted a systematic review examining the effects of nonpharmacological cognitive interventions on functional outcomes: <https://pubmed.ncbi.nlm.nih.gov/39533503/>
- Martin-Giacalone and colleagues discussed the importance of overcoming systemic barriers to make patient-partnered research a reality: https://ascopubs.org/doi/10.1200/JCO.24.00347?url_ver=Z39.88-2003&rfr_id=ori:rid:crossref.org&rfr_dat=cr_pub%20%20pubmed
- Magalalang and colleagues examined the experiences of Black, Indigenous, and People of Color (BIPOC) gay men in accessing smoking cessation counseling from their healthcare providers and understand the facilitators and barriers to smoking cessation: <https://pubmed.ncbi.nlm.nih.gov/39622436/>
- Ho and colleagues discuss promoting interactional health equity through (Complementary and Integrative Health) talk during clinical encounters: <https://pubmed.ncbi.nlm.nih.gov/39862491/>

- Kim J and colleagues conducted a systematic review synthesizing psychosocial and behavioral interventions incorporating culture with the goal of examining their benefit for understudied and medically underserved populations with advanced and metastatic cancer: <https://pubmed.ncbi.nlm.nih.gov/38472713/>
- Young and colleagues aimed to explore parental experience with familial hypercholesterolemia diagnosis in their children, identify key facilitators and barriers in children's diagnosis and care, and examine parental perspectives on universal lipid screening in children in the United States: <https://pubmed.ncbi.nlm.nih.gov/39126536/>
- Tan and colleagues described the systematic development of a group-singing intervention to reduce loneliness and social isolation among older people living with HIV: <https://pubmed.ncbi.nlm.nih.gov/39378071/>
- Ng and colleagues assessed the rate of stroke/death and functional outcomes in A Randomized Trial of Unruptured Brain Arteriovenous Malformations (ARUBA) -eligible patients from a multicenter database, the Neurovascular Quality Initiative-Quality Outcomes Database (NVQI-QOD): <https://pubmed.ncbi.nlm.nih.gov/38195249/>
- Phan L and colleagues examined demographic associations with learning about NPs through varying marketing channels, and their associations with nicotine pouches experimentation overall and stratified by race/ethnicity: <https://pubmed.ncbi.nlm.nih.gov/39282529/>
- Phan L and colleagues examined how experiencing financial hardships relates to increased commercial tobacco discount coupon reception during the pandemic: <https://pubmed.ncbi.nlm.nih.gov/37339815/>
- Li L and colleagues discussed optimizing care planning for older adults in primary care: <https://pubmed.ncbi.nlm.nih.gov/39621325/>
- Li L and colleagues used human-centered design (HCD) with clinicians caring for older adults with advanced dementia to develop intervention ideas to reduce high-intensity, goal-discordant treatments near the end of life: <https://pubmed.ncbi.nlm.nih.gov/39615661/>
- Sabado-Liwag, Kwan, and colleagues examined whether generational immigration (GenIm) status modifies the association of mental health and substance use among alternative high school (AHS) students using a longitudinal study of 1,060 Southern California AHS students: <https://pubmed.ncbi.nlm.nih.gov/39066754/>
- Nguyen N, Do, and colleagues examined day-level associations between vaping patterns with vaping quantity: <https://pubmed.ncbi.nlm.nih.gov/39644839/>
- Nguyen N and colleagues assessed receipt of smoking cessation medications and smoking abstinence among veterans prescribed opioid analgesics with and without cannabis use: <https://pubmed.ncbi.nlm.nih.gov/39528724/>
- Nguyen N and colleagues conducted a narrative review to update previous review on tobacco-cannabis co-use treatment: <https://pubmed.ncbi.nlm.nih.gov/39089194/>
- Meyer, Park, and colleagues describe our evidence-based, scalable culturally informed, community-engaged research (CI-CER) model and demonstrate its preliminary success in increasing underrepresented populations enrollment: <https://pubmed.ncbi.nlm.nih.gov/39440702/>
- Nguyen P and colleagues described generation and characterization of three induced pluripotent stem cell lines for modeling coronary artery vasospasm: <https://pubmed.ncbi.nlm.nih.gov/39729862/>
- Gomez and colleagues highlight the elevated risk of lung cancer among Asian American females who have never smoked as an emerging cancer disparity: <https://pubmed.ncbi.nlm.nih.gov/39565906/>
- Gomez and colleagues examined associations of ethnic enclave and neighborhood socioeconomic status (nSES) with breast cancer incidence rates among AANHPI females in California: <https://pubmed.ncbi.nlm.nih.gov/39438356/>
- Gomez and colleagues evaluated built and social neighborhood characteristics and their association with muscle strength over time: <https://pubmed.ncbi.nlm.nih.gov/39360832/>
- Gomez and colleagues identified sociodemographic and regional factors associated with Oncotype DX Genomic Prostate Score (ODX-GPS) uptake: <https://pubmed.ncbi.nlm.nih.gov/39158464/>
- Gomez and colleagues investigated the stage of diagnosis by levels of rurality for the five most common cancers: <https://pubmed.ncbi.nlm.nih.gov/39141060/>

- Mahadevan and colleagues aimed to compare pregnancy outcomes of women with inflammatory bowel disease using biosimilar vs originator infliximab (IFX): <https://pubmed.ncbi.nlm.nih.gov/39665589/>
- Mahadevan and colleagues aimed to: (1) compare rates of oral steroid transition failure and 30-day readmission between acute severe ulcerative colitis (ASUC) hospitalizations with extended inpatient monitoring compared to accelerated inpatient monitoring, and (2) identify predictors of oral steroid transition failure: <https://pubmed.ncbi.nlm.nih.gov/39495414/>
- Mahadevan and colleagues described prevalence of malnutrition and micronutrient deficiencies in older adults with ulcerative colitis: <https://pubmed.ncbi.nlm.nih.gov/39438412/>
- Mahadevan and colleagues developed a modified Delphi-based consensus document to address endoscopic aspects of management of inflammatory bowel disease: <https://pubmed.ncbi.nlm.nih.gov/39425706/>
- Mahadevan and colleagues explored low placental transfer rates of Risankizumab among pregnant women with inflammatory bowel disease: <https://pubmed.ncbi.nlm.nih.gov/39216079/>
- Mahadevan and colleagues described pregnancy outcomes in patients exposed to upadacitinib during pregnancy: <https://pubmed.ncbi.nlm.nih.gov/39008024/>
- Mahadevan and colleagues evaluated pregnancy outcomes in patients with ulcerative colitis, Crohn's disease, or multiple sclerosis and in healthy volunteers treated with ozanimod: <https://pubmed.ncbi.nlm.nih.gov/38267826/>
- Mahadevan and colleagues aimed to determine the prevalence of high grade squamous intraepithelial lesions (HSIL) and anal cancer among men who have sex with men (MSM) patients with and without inflammatory bowel disease (IBD) referred for anal cancer screening: <https://pubmed.ncbi.nlm.nih.gov/37951596/>
- Singh and colleagues evaluate the agreement between motor examinations performed by the neurosurgery clinical team and International Standards for Neurological Classification of Spinal Cord Injury examiners: <https://pubmed.ncbi.nlm.nih.gov/39366011/>
- Do and colleagues assessed changes in purchasing behaviors and use of tobacco products such as e-cigarettes and cigarettes among different tobacco user groups during the COVID-19 pandemic using a mixed methods approach: <https://pubmed.ncbi.nlm.nih.gov/39570899/>
- Fukuoka and colleagues described the relationship between the stage of behavior change and awareness, knowledge, and perceptions of cardiovascular disease among women 25-55 years and identify predictors of the stage of behavior change: <https://pubmed.ncbi.nlm.nih.gov/39454082/>
- Doan and colleagues compared racial/ethnic disparities in the prevalence of non-obese type 2 diabetes (T2D) and the proportion of non-obese individuals among T2D patients: <https://pubmed.ncbi.nlm.nih.gov/39712367/>
- Doan and colleagues assessed inequities in self-reported access to mental or behavioral health services between non-Hispanic AA and NHPI Medicaid enrollees and non-Hispanic White Medicaid enrollees, both by racial group and across 10 disaggregated ethnic groups: <https://pubmed.ncbi.nlm.nih.gov/39696990/>
- Sy and collaborators have a preprint focused on Development and Implementation of a Minority Health International Infectious Diseases Research Training Program: <https://www.biorxiv.org/content/10.1101/2025.01.05.631114v1>
- Saw and colleagues examined participation in preventive cancer screening, healthcare access barriers, and facilitators in a community-based sample of 308 Rohingya refugees in Chicago, Illinois: <https://pubmed.ncbi.nlm.nih.gov/39425481/>
- Bui and colleagues reported disaggregated suicide mortality rates among Asian American youths and young adults by ethnic subgroup: <https://pubmed.ncbi.nlm.nih.gov/39158891/>
- Chen and colleagues described the role of aldehyde dehydrogenase 2 in chronic kidney disease: <https://pubmed.ncbi.nlm.nih.gov/39393529/>
- Tam and colleagues disaggregated Asian and Native Hawaiian or Pacific Islander adolescents into racial and ethnic subgroups and compare risks of suicidal ideation between and within the subgroups: <https://pubmed.ncbi.nlm.nih.gov/39576641/>

- Tam and colleagues explored long-term associations between early life adversity before age 5 (ELA) and later substance use outcomes, and racial and ethnic differences in associations: <https://pubmed.ncbi.nlm.nih.gov/39377245/>
- Tam and colleagues assessed individual- and contextual-level correlates of secondhand harms from cannabis use and considered whether cannabis legalization support, along with cannabis user status, predicted such harms: <https://pubmed.ncbi.nlm.nih.gov/38662514/>
- Galen and colleagues described the unique values of, challenges within, and opportunities presented by embedded ELSI ethnography: <https://pubmed.ncbi.nlm.nih.gov/39707938/>
- Galen and colleagues assessed the acceptability of an online communication training program for genetic counseling students: <https://pubmed.ncbi.nlm.nih.gov/37795757/>
- Yen I and colleagues assessed exposures to 23 common chemicals across a range of sociodemographic characteristics and their relationship with self-reported infertility: <https://pubmed.ncbi.nlm.nih.gov/39767383/>
- Shim and colleagues examined how diversity is conceptualized in U.S. precision medicine research initiatives, specifically attending to how measures of diversity, including race, ethnicity, and medically underserved status, are constructed and harmonized to build commensurate datasets: <https://pubmed.ncbi.nlm.nih.gov/39370888/>
- Chen JL and colleagues examined the efficiency of ophthalmology departments in the Hunan Province, China, and determine the associating factors of low-efficiency and high-efficiency ophthalmology departments: <https://pubmed.ncbi.nlm.nih.gov/39729445/>
- Chen JL and colleagues examined fluctuations in stress, social support, and decisional conflict among surrogates during the admission and discharge phases of intensive care unit (ICU) patients with cancer: <https://pubmed.ncbi.nlm.nih.gov/39392496/>
- Karliner and colleagues investigated factors associated with initial treatment among patients who screen positive for depression and/or suicidal ideation (SI): <https://pubmed.ncbi.nlm.nih.gov/39652335/>
- Karliner and colleagues characterized the frequency and types of high-risk medications used by older adults with cognitive impairment (CI) living alone and, for context, compared patterns with those in older adults with CI living with others: <https://pubmed.ncbi.nlm.nih.gov/39056523/>
- Karliner and colleagues elicited clinician perspectives on barriers/facilitators of using eConsults for deprescribing among older adults within a university health network: <https://pubmed.ncbi.nlm.nih.gov/38941059/>
- Karliner and colleagues assessed current state and best practices for standardized patients for Spanish-language objective structured clinical encounters in U.S. medical schools: <https://pubmed.ncbi.nlm.nih.gov/37947832/>
- Somsouk and colleagues explored the effect of mailed outreach on completion of fecal immunochemical test (FIT) among patients aged 45-50 in a safety net healthcare system: <https://pubmed.ncbi.nlm.nih.gov/38822978/>
- Somsouk and colleagues determined the proportion of individuals with detectable antigen in plasma or serum after SARS-CoV-2 infection and the association of antigen detection with postacute sequelae of COVID-19 (PASC) symptoms: <https://pubmed.ncbi.nlm.nih.gov/39389851/>
- Khalili and colleagues evaluated the impact of income and geography on racial/ethnic disparities across the hepatocellular carcinoma care cascade in the U.S.: <https://pubmed.ncbi.nlm.nih.gov/39636161/>
- Khalili and colleagues examined rates of lifetime and past 12-month alcohol use disorder treatment utilization and associated demographic and clinical characteristics: <https://pubmed.ncbi.nlm.nih.gov/39632077/>
- Khalili and colleagues explored factors associated with the importance and confidence dimensions of motivation to reduce drinking: <https://pubmed.ncbi.nlm.nih.gov/39523996/>
- Khalili and colleagues examined whether phosphatidylethanol (PEth, an alcohol metabolite) blood concentrations are associated with liver fibrosis risk independently of self-reported alcohol use, among persons with and without HIV: <https://pubmed.ncbi.nlm.nih.gov/39480054/>
- Chao M and colleagues evaluated the acceptability and tolerability of a remotely delivered yoga program for chronic pelvic pain in women and examined data quality and interpretability for measures of pelvic pain intensity and impact with yoga instruction: <https://pubmed.ncbi.nlm.nih.gov/39723995/>

- Chao M and colleagues describe a study protocol to test the impacts of 2 group-based models - group acupuncture and integrative group medical visits - on multilevel pain-related outcomes: <https://pubmed.ncbi.nlm.nih.gov/39568795/>
- Sudhinaraset and colleagues examined differences in immigration enforcement policies across U.S. counties: <https://pubmed.ncbi.nlm.nih.gov/39733563/>
- Raj M and colleagues compared online medical record (OMR) use among caregivers and non-caregivers before and during the COVID-19 pandemic, identifies reasons for non-use, and examines the association between caregiving status and characteristics with OMR use: <https://pubmed.ncbi.nlm.nih.gov/39648981/>
- Raj M and colleagues examined the relationship between (1) caregiving status and loneliness among older adults; (2) sociodemographic, technology, health, and caregiving characteristics and loneliness among older caregivers; and (3) compared how these variables relate to loneliness among older caregivers of persons with dementia versus non-dementia conditions: <https://pubmed.ncbi.nlm.nih.gov/39577446/>
- Raj M and colleagues (1) examined how physical activity and sedentary behavior are related to mental distress and (2) identified and compared how various levels of sedentary behaviors may differentially predict mental distress after accounting for physical activity, among caregivers vs non-caregivers: <https://pubmed.ncbi.nlm.nih.gov/39548895/>
- Raj M and colleagues discussed recent changes to the 2024 Medicare Physician Fee Schedule to include caregiver training services (CTS) and urged its further optimization to include CTS related to nutrition and dietary modification in clinical visits for medical nutrition therapy: <https://pubmed.ncbi.nlm.nih.gov/39477146/>
- Kim M and colleagues delineated perceptions and experiences depicted in sexual and gender minority (SGM)-related videos about nicotine vaping on TikTok: <https://pubmed.ncbi.nlm.nih.gov/39867468/>
- Kim M and colleagues examined heated tobacco product-related social media discourse around important policy events: <https://pubmed.ncbi.nlm.nih.gov/39446431/>
- Kim M and colleagues evaluated whether the effects of cigarette package inserts with efficacy messages and/or pictorial health warning labels (PHWLs) differ across key subgroups of adults who smoke: <https://pubmed.ncbi.nlm.nih.gov/38850013/>
- Le PV and colleagues developed a transition to clerkship bootcamp with an innovative and flexible curriculum post COVID-19: <https://pubmed.ncbi.nlm.nih.gov/39552182/>
- Sarkar and colleagues aimed to evaluate the impact of patient and clinic level interventions to determine individual effectiveness and potential synergistic impact on clinical and process measures related to diabetes and telehealth outcomes: <https://pubmed.ncbi.nlm.nih.gov/39679006/>
- Sarkar and colleagues aimed to evaluate the implementation of a technology-enabled peer coaching intervention to support diabetes self-management among patients with uncontrolled diabetes: <https://pubmed.ncbi.nlm.nih.gov/39405529/>
- Sarkar and colleagues tested whether a digital physical activity intervention using personalized text messaging via reinforcement learning algorithms could increase step counts in a diverse, multilingual sample of people with diabetes and depression symptoms: <https://pubmed.ncbi.nlm.nih.gov/39378080/>
- Sarkar and colleagues characterized the range of practice arrangements and expectations for attending academic physicians in general internal medicine (GIM) practices at the top 22 medical schools across the USA: <https://pubmed.ncbi.nlm.nih.gov/39356449/>
- Sarkar and colleagues conducted a scoping review to characterize the current state of related research describing the role of group medical visits in cancer survivorship care: <https://pubmed.ncbi.nlm.nih.gov/39557760/>
- Tseng W and colleagues assessed whether polypharmacy is linked to falls or other clinical outcomes: <https://pubmed.ncbi.nlm.nih.gov/39483819/>
- Jia and colleagues compared the use and delivery of palliative care in the last year of life between ethnically Chinese and non-Chinese adults: <https://pubmed.ncbi.nlm.nih.gov/38926319/>
- Tseng Z and colleagues sought to determine the burden of genetic disease in unselected adult sudden deaths by precision genotype-postmortem phenotype correlation: <https://pubmed.ncbi.nlm.nih.gov/39708038/>

- Tseng Z and colleagues described evaluated whether *TTN* variants were associated with autopsy-defined idiopathic dilated cardiomyopathy (DCM) and autopsy-defined arrhythmic death, leveraging the POST SCD (Postmortem Systematic Investigation of SCD) study in San Francisco County: <https://pubmed.ncbi.nlm.nih.gov/39641695/>
- Tseng Z and colleagues compared heart failure (HF) phenotypes, all-cause mortality, HF hospitalization, and cause of death for individuals with and without HIV: <https://pubmed.ncbi.nlm.nih.gov/39575755/>
- Tseng Z and colleagues sought to define the distinct myocardial transcriptomic profile of autopsy-defined arrhythmic sudden deaths, compared to nonarrhythmic sudden deaths and trauma deaths, to determine the acute vulnerable state in the hours to days before sudden cardiac deaths: <https://pubmed.ncbi.nlm.nih.gov/39545913/>
- Qamar and colleagues described current food insecurity (FI)-related training among nutrition/dietetics, public health, and social work students: <https://pubmed.ncbi.nlm.nih.gov/39320297/>
