THE ARCH NEWSLETTER

NOVEMBER 2024

NEWS

DR. JANICE TSOH RECEIVES 2024 UNDERREPRESENTED MINORITY RESEARCH MENTORING AWARD

ARCH Co-Director Janice Tsoh, PhD recently received the 2024 Underrepresented Minority Research Mentoring Award from the Department of Psychiatry and Behavioral Sciences at the University of California San Francisco. More details [here](#).

DR. DALE MAGLALANG PUBLISHED OP-ED

Dale Maglalang, PhD, MA, MSW, MPH published op-ed on “Why Anti-Racism Still Matters” in *Visible Magazine* available [here](#).

DR. JANE JIH APPOINTED CHAIRPERSON OF THE HHS OFFICE OF MINORITY HEALTH ADVISORY COMMITTEE ON MINORITY HEALTH

ARCH Co-Director Jane Jih, MD, MPH, MAS has been appointed the chairperson of the Advisory Committee on Minority Health in the Office of Minority Health in the Department of Health and Human Services.

GRANTS

DR. JENNIFER YOUNG RECEIVES KO1 CAREER DEVELOPMENT AWARD

Jennifer Young, PhD received a K01 career developed award entitled "A Community-Based Approach to ALDH2 Genetic Testing in East Asian Americans."

JOYCE CHENG AND DR. JANICE TSOH RECEIVE TRDRP COMMUNITY PARTNERED PARTICIPATORY RESEARCH AWARD

Joyce Cheng, MPH, MS, Executive Director of the Chinese Community Health Resource Center, and Janice Tsoh, PhD, Professor Psychiatry and Behavioral Sciences at UCSF have received a 3-year Community Partnered Participatory Research Award from the Tobacco-Related Disease Research Program for their grant proposal "Ending Tobacco Use and Smoke Exposure Among Asian American Communities." The project will focus on evaluating the timing of integrating thirdhand smoking education to smoking cessation intervention among Chinese Americans.

DR. LILIANA PHAN RECEIVES PILOT GRANT

Liliana Phan, PhD, MPH, MS received a pilot proposal grant that focuses on understanding e-cigarette use behaviors among Asian American young adults and co-developing public education with Asian American young adults to communicate the harms of e-cigarette use. This pilot proposal is funded by Jefferson Health's Sidney Kimmel Comprehensive Cancer Center (SKCC) through their American Cancer Society Institutional Research Grant. Our research team also includes Kuang-Yi Wen, Hee-Soon Juon, and Julia A. Barta from SKCC.

DR. ANTHONY BUI RECEIVES DIVERSITY AND HEALTH EQUITY RESEARCH SEED GRANT

Anthony Bui, MD, MPH received a "[Diversity and Health Equity Research Seed Grant](#)" from the Seattle Children's Center for Diversity and Health Equity to supplement by my ongoing work understanding mental healthcare access and barriers among Vietnamese American youth. The project is entitled: "Beliefs and Attitudes about Facilitators and Barriers to Mental Healthcare Among Vietnamese American Youth and their Parents (with Engagement of a Community Advisory Board)."

ARCH MEETINGS IN 2025

Our tentative ARCH Quarterly Meeting Schedule for 2025 will be as follows (third Wednesday every 3 months):

February 20

May 1

August 21

November 13 or 20

Please stay tuned for calendar invites to our upcoming meetings.

ABSTRACTS REVIEWS

Compiled by Dr. Janet Chu

June 30, 2024 to September 30, 2024

ARCH Members Abstracts

- Tsoh and colleagues examined distinct patterns of cigarette smoking and their association with the ongoing use of other substances in women who experience housing instability: <https://pubmed.ncbi.nlm.nih.gov/38761684/>
- Tsoh and colleagues examined the association between cigarette smoking and COVID-19 hospitalization with consideration of cannabis use: <https://pubmed.ncbi.nlm.nih.gov/39429806/>
- Tsoh and colleagues examined language proficiency, demographic and clinical characteristics as predictors of early treatment discontinuation among migrants: <https://pubmed.ncbi.nlm.nih.gov/38960880/>
- Chu, Tsoh, Wong, Gomez, Nguyen TT, and colleagues designed and implemented a pilot study to provide culturally- and linguistically-appropriate navigation for Asian American cancer patients: <https://pubmed.ncbi.nlm.nih.gov/39387093/>
- Nguyen TT, Karliner and colleagues analyzed inequities in pain assessment and management for hospitalized older adults focusing on demographic and geriatric-related variables: <https://pubmed.ncbi.nlm.nih.gov/38997213/>
- Kanaya and colleagues describes the process involved in combining three cardiovascular health-focused cohorts: Jackson Heart Study, Multi-Ethnic Study of Atherosclerosis, and Mediators of Atherosclerosis in South Asians Living in America Study: <https://pubmed.ncbi.nlm.nih.gov/39117574/>
- Kanaya and colleagues assessed longitudinal relationships between circulating microRNAs and weight at multiple time-points in the Diabetes Prevention Program trial: <https://pubmed.ncbi.nlm.nih.gov/39359416/>
- Meyer, Kanaya, Park, and colleagues reported objectives, study design, and cohort description for the Vietnamese Insights into Cognitive Aging Program (VIP): <https://pubmed.ncbi.nlm.nih.gov/39040573/>
- Kanaya and colleagues assessed if religion/spirituality moderate the effects of childhood trauma on adult depressive symptoms among a sample of South Asians in the USA: <https://pubmed.ncbi.nlm.nih.gov/38600425/>
- Kanaya and colleagues investigated factors predicting weight and waist gain in a longitudinal cohort of South Asians living in the US (United States): <https://pubmed.ncbi.nlm.nih.gov/39139780/>
- Kanaya and colleagues explored the effect of type 2 diabetes on dementia incidence in a diverse cohort of Asian American and non-Latino White older adults: <https://pubmed.ncbi.nlm.nih.gov/38949483/>
- Kanaya and colleagues aimed to identify profiles of serum metabolites reflective of plant-based diets of varying quality and examine associations with cardiometabolic risk and T2D: <https://pubmed.ncbi.nlm.nih.gov/38901635/>
- Martin-Giacalone and colleagues discussed the barriers posed by processes of consent, data exchange, and EHR interoperability and proposed potential solutions to address these barriers: <https://pubmed.ncbi.nlm.nih.gov/39094073/>
- Maglalang and colleagues assessed the harm-reduction potential of e-cigarettes and oral nicotine pouches among smokers with low socioeconomic status (SES): <https://pubmed.ncbi.nlm.nih.gov/38447095/>
- Maglalang and colleagues examined factors associated with smoking among lesbian, gay, bisexual, transgender, queer, and intersex plus (LGBTQI+) cancer survivors during the pandemic: <https://pubmed.ncbi.nlm.nih.gov/37012576/>
- Maglalang and colleagues examined racial/ethnic differences in the effects of smoking cigarettes with varying nicotine content levels on subjective effects and tobacco withdrawal among adolescents who smoke daily: <https://pubmed.ncbi.nlm.nih.gov/39243729/>

- Maglalang and colleagues examine the association between heterosexist discrimination and substance use in young adult sexual minority men (YASMM), and if dispositional mindfulness can moderate this relationship: <https://www.liebertpub.com/doi/10.1089/heq.2024.0015>
- Maglalang and colleagues (a) created and validated measurement scales of surface level Filipino cultural values and (b) examined its associations with depressive symptoms and substance use in a sample of Filipino Americans (FAs). <https://doi.org/10.1037/aap0000352>
- Maglalang and colleagues discussed the precolonial and colonial history of the conceptualization of what society understands today as the Filipino and Filipinx American LGBTQ+ identity: <https://academic.oup.com/book/58656/chapter/485324390>
- Maglalang and colleagues examined racial/ethnic differences in the effects of smoking cigarettes with varying nicotine content levels on subjective effects and tobacco withdrawal among adolescents who smoke daily: <https://pubmed.ncbi.nlm.nih.gov/39243729/>
- Kim and colleagues examined the literature on historical trauma (HT) in relation to US ethn racial groups by defining HT, providing a background for its development, and describing critiques of the concept: <https://pubmed.ncbi.nlm.nih.gov/38271636/>
- Kim and colleagues examined the relationships between SES (income and education level) and two important biobehavioral factors (cancer-related fatigue and perceived stress), as well as mediation through sleep-related problems (sleep medication use, daytime dysfunction, and sleep quality) among a sample of Chinese American breast cancer survivors: <https://pubmed.ncbi.nlm.nih.gov/39430036/>
- Kim and colleagues reported healthcare professionals' perspectives of supportive care needs of Chinese-, Korean-, and Vietnamese-heritage (CKV) adults with metastatic solid cancers: <https://pubmed.ncbi.nlm.nih.gov/39430037/>
- Chang and colleagues proposed a theory of "racial mortality inversion" and tested whether inverted Black-White mortality patterns are observable in homeless populations throughout the United States: <https://pubmed.ncbi.nlm.nih.gov/39055644/>
- Young and colleagues aimed to explore parental experience with Familial Hypercholesterolemia diagnosis in their children, identify key facilitators and barriers in children's diagnosis and care, and examine parental perspectives on universal lipid screening in children in the United States: <https://pubmed.ncbi.nlm.nih.gov/39126536/>
- Tan, Gomez, and colleagues characterized dietary patterns in a sample representative of AANHPI on key demographic characteristics: <https://pubmed.ncbi.nlm.nih.gov/39107722/>
- Phan L and colleagues explored the perceptions and use interests of FDA-authorized e-cigarettes among this population to inform policy decision-making: <https://pubmed.ncbi.nlm.nih.gov/39077552/>
- Phan L and colleagues examined demographic associations with learning about nicotine pouches (NP) through varying marketing channels, and their associations with NP experimentation overall and stratified by race/ethnicity: <https://pubmed.ncbi.nlm.nih.gov/39282529/>
- Li L and colleagues assessed the association of anti-Asian hate with older Asian individuals' health and the clinician's role in addressing hate incidents: <https://pubmed.ncbi.nlm.nih.gov/38739380/>
- Li L, Karliner and colleagues examined how anti-Asian hate impacts older Asians' mental, social, and physical health: <https://pubmed.ncbi.nlm.nih.gov/38801317/>
- Sabado-Liwag, Kwan, and colleagues examined alcohol use (AU) among intersectional subgroups within a longitudinal cohort of predominantly Hispanic/Latino alternative high school (AHS) students in southern California: <https://pubmed.ncbi.nlm.nih.gov/38085206/>
- Sabado-Liwag and colleagues sought to examine whether generational immigration (GenIm) status modifies the association of mental health and substance use (SU) among alternative high schools (AHS) students using a longitudinal study of 1,060 Southern California AHS students: <https://pubmed.ncbi.nlm.nih.gov/39066754/>
- Nguyen N and colleagues conducted a narrative review to (1) summarize promising intervention components used in published co-use treatment studies, (2) describe key gaps and emerging issues in co-use, and (3) provide recommendations and considerations in the development and evaluation of co-use interventions: <https://pubmed.ncbi.nlm.nih.gov/39089194/>
- Nguyen N and colleagues integrated ecological momentary assessment with qualitative mapping interviews to explore situations and roles of cannabis versus cigarette use: <https://pubmed.ncbi.nlm.nih.gov/39032204/>

- Nguyen N and colleagues examined the association between concurrent use of tobacco and cannabis and mental health problems in a national sample of US youths: <https://pubmed.ncbi.nlm.nih.gov/38958977/>
- Nguyen N, Kim, and colleagues described how young adults use electronic cigarettes (electronic nicotine delivery systems (ENDS)) for smoking cessation and reasons why they may or may not successfully quit smoking: <https://pubmed.ncbi.nlm.nih.gov/37072166/>
- Nguyen P and colleagues identified the needs, opportunities, and potential challenges encountered by women faculty in science and academic medicine: <https://pubmed.ncbi.nlm.nih.gov/38957985/>
- Gomez and colleagues identified sociodemographic and regional factors associated with Oncotype DX Genomic Prostate Score (ODX-GPS) uptake: <https://pubmed.ncbi.nlm.nih.gov/39158464/>
- Gomez and colleagues described the creation and validation of two novel measures-Asian-serving and Hispanic-serving sociocultural institutions (SCIs)-to estimate the social, cultural, and economic character of ethnic enclaves in California: <https://pubmed.ncbi.nlm.nih.gov/39032193/>
- Gomez and colleagues analyzed disparities in cervical cancer stage at presentation in the United States, focusing on disaggregated Asian American, Native Hawaiian, or Pacific Islander groups: <https://pubmed.ncbi.nlm.nih.gov/39179090/>
- Gomez and colleagues described the neighborhood social and built environment attributes of Latino enclaves and evaluated associations between enclaves and geographic healthcare accessibility: <https://pubmed.ncbi.nlm.nih.gov/39285075/>
- Gomez and colleagues investigated disparities in stage of diagnosis by levels of rurality for the five most common cancers from 2015-2019: <https://pubmed.ncbi.nlm.nih.gov/39141060/>
- Gomez and colleagues compared distributions of demographic and clinical characteristics, in addition to neighborhood and environmental conditions, between patients diagnosed with lung cancer from 2015 through 2019 at Kaiser Permanente Northern California, National Cancer Institute-designated cancer centers (NCICCs), and all other non-NCICC hospitals within the same catchment area: <https://pubmed.ncbi.nlm.nih.gov/38980792/>
- Gomez and colleagues described suicide incidence among patients with cancer compared with the general population and by surgical status and cancer treatment: <https://pmc.ncbi.nlm.nih.gov/articles/PMC11372498/>
- Carroll and colleagues assessed the association of depressive symptoms and contraception decisions in perinatal individuals: <https://pubmed.ncbi.nlm.nih.gov/38583583/>
- Misra and colleagues examined psychiatric healthcare experiences of South Asian patients with severe mental illness diagnoses (e.g., severe depression, bipolar disorder, schizophrenia) in New York City: <https://pubmed.ncbi.nlm.nih.gov/39046623/>
- Misra and colleagues assessed relationships between trauma types and psychotic symptoms using a network analysis of patients with psychotic disorders in a large, multi-country study in East Africa: <https://pubmed.ncbi.nlm.nih.gov/38876004/>
- Mahadevan and colleagues described pregnancy outcomes in patients exposed to upadacitinib during pregnancy: <https://pubmed.ncbi.nlm.nih.gov/39008024/>
- Mahadevan and colleagues sought to determine how high opioid use impacts clinical outcomes in acute severe ulcerative colitis (ASUC): <https://pubmed.ncbi.nlm.nih.gov/39295282/>
- Do and colleagues examined longitudinally perceptions and experiences with electronic nicotine delivery systems (ENDS) in relationship to concurrent use patterns among established, recent smokers who recently initiated ENDS: <https://pubmed.ncbi.nlm.nih.gov/39345875/>
- Do and colleagues examined the association between concurrent use of tobacco and cannabis and mental health problems in a national sample of US youths: <https://pubmed.ncbi.nlm.nih.gov/38958977/>
- Bui and colleagues discussed suicide rates among Asian American and Pacific Islander youths: <https://pubmed.ncbi.nlm.nih.gov/39052297/>
- Bui and colleagues calculated suicide rates for youths (aged 15-19 years) and young adults (aged 20-24 years) from 2018 to 2021 for the 5 largest Asian American subgroups (Chinese, Filipino, Indian, Korean, and Vietnamese) and all other Asian American individuals: <https://pubmed.ncbi.nlm.nih.gov/39158891/>

- Bui and colleagues discussed building a “Faculty Supper Club”, a small group dinner program to restore the mentorship and connections between residents and faculty pediatricians at a large academic pediatric residency program: <https://pubmed.ncbi.nlm.nih.gov/39299532/>
- Chen CH and colleagues discuss the changing landscape of alcohol consumption in the women: <https://pubmed.ncbi.nlm.nih.gov/39037222/>
- Chen CH and colleagues questioned whether additional aldehyde dehydrogenase 2 (ALDH2) genetic variants can drive facial flushing and inefficient acetaldehyde metabolism using human testing and biochemical assays: <https://pubmed.ncbi.nlm.nih.gov/39075523/>
- Tam and colleagues investigated the substance-specific and cross-substance risk associated with early onset (before age 15) of drunkenness and cannabis use in the subsequent development of alcohol (AUD) and cannabis use disorder (CUD) in Mexican American young adults: <https://pubmed.ncbi.nlm.nih.gov/36093789/>
- Joseph and colleagues examined the experience of participants in the WISDOM (Women Informed to Screen Depending on Measures of Risk) trial who received a pathogenic variant in one of nine high or moderate penetrance breast cancer genes: <https://pubmed.ncbi.nlm.nih.gov/39307132/>
- Chen JL (1) compared diabetes risk outcomes of an evidence-based intensive lifestyle modification (ILSM) intervention, a camp-style lifestyle modification program (CAMP) intervention, and usual care among women with GDM history; and (2) evaluate the comparative efficacy of the CAMP versus ILSM intervention on implementation outcomes: <https://pubmed.ncbi.nlm.nih.gov/39304869/>
- Karliner and colleagues examined PCPs' and geriatricians' perspectives on clinical needs and optimal approaches to care for middle-aged patients with functional impairment: <https://pubmed.ncbi.nlm.nih.gov/38489004/>
- Karliner and colleagues characterized the frequency and types of high-risk medications used by older adults with cognitive impairment (CI) living alone and, for context, compared patterns with those in older adults with CI living with others: <https://pubmed.ncbi.nlm.nih.gov/39056523/>
- Somsouk and colleagues evaluated tissue-based T cell activation among participants after SARS-CoV-2 infection: <https://pubmed.ncbi.nlm.nih.gov/38959327/>
- Somsouk and colleagues assessed the effect of a multicomponent intervention on screening completion among patients age 45-49: <https://pubmed.ncbi.nlm.nih.gov/39455266/>
- Somsouk, Sarkar, and colleagues examined the utility of the International Classification of Disease, Tenth Revision (ICD-10) code, R19.5, for a positive or abnormal fecal immunochemical test (FIT) and its association with colonoscopy completion: <https://pubmed.ncbi.nlm.nih.gov/38488169/>
- Khalili and colleagues investigated clinical laboratory markers of SARS-CoV-2 and postacute sequelae of SARS-CoV-2 infection (PASC): <https://pubmed.ncbi.nlm.nih.gov/39133923/>
- Khalili and colleagues developed preliminary definitions of cirrhosis and its complications by literature review, expert opinion, and reviewing definition documents developed by other organization: <https://pubmed.ncbi.nlm.nih.gov/39018024/>
- Chao and colleagues described a community midwifery postpartum care model and its potential to improve postpartum health for birthing people and babies: <https://pubmed.ncbi.nlm.nih.gov/38590170/>
- Sudhinaraset and colleagues adapted and validated a person-centered abortion care (PCAC) scale for medication abortions that was developed in a global South context (Kenya) for use in the United States: <https://pubmed.ncbi.nlm.nih.gov/38754758/>
- Sudhinaraset and colleagues examined correlates of vaccination for Kenyan children per the Behavioural and Social Drivers of Vaccination model: <https://pubmed.ncbi.nlm.nih.gov/39070930/>
- Sudhinaraset and colleagues investigated the association between exposure to immigration enforcement and the mental health of undocumented young adults in California during the COVID-19 pandemic: <https://pubmed.ncbi.nlm.nih.gov/38973802/>
- Sudhinaraset and colleagues 1) described patterns of immigrant policy exclusion experienced by Asian and Latinx immigrants and 2) tested relationships between patterns of policy exclusion and health care access and health status: <https://pubmed.ncbi.nlm.nih.gov/38905924/>
- Raj and colleagues evaluated Asian American caregivers' experiences and concerns related to clinical trials and the types of information they trust, use, and prefer before enrolling their older relative in a clinical trial: <https://pubmed.ncbi.nlm.nih.gov/39101877/>

- Raj and colleagues examined when and why unpaid caregivers use respite services: <https://pubmed.ncbi.nlm.nih.gov/38298084/>
- Burke and colleagues discussed the acceptability and feasibility of survivorship group medical visits for breast cancer survivors in a safety net hospital: <https://pubmed.ncbi.nlm.nih.gov/38724720/>
- Sy and colleagues used the lens of Samoan 'alaga'upu (proverbs) to share a story about the American Samoa Community Cancer Coalition's study of functional health literacy in adults who are at risk of colorectal cancer: https://link.springer.com/chapter/10.1007/978-3-031-56806-0_66
- Khan and colleagues investigated the factors that contributed to the COVID-19 vaccine hesitancy in South Asian Americans and other communities of color in the US: https://bmanaj.org/admin/assets/article/pdf/101_pdf.pdf
- Nguyen TT and colleagues explored how ChatGPT 3.5 and 4.0 provide HIV-related guidance related to race and ethnicity, sexual orientation, and gender identity; and if and how that guidance mentions discrimination and stigma: <https://pubmed.ncbi.nlm.nih.gov/39259263/>
- Nguyen TT and colleagues estimated the effects of educational attainment on cognitive performance over 10 years in non-Hispanic Black and non-Hispanic White participants, aged 45+ in the REasons for Geographic and Racial Disparities in Stroke (REGARDS) cohort (2003-2020): <https://pubmed.ncbi.nlm.nih.gov/39329415/>
- Sarkar and colleagues assessed the feasibility of using large language models for topic model selection or inductive thematic analysis of large contents of social media posts: <https://pubmed.ncbi.nlm.nih.gov/39207842/>
- Sarkar and colleagues used human-centered design to develop a digital platform for community-based organizations, focused on identification of health and social resources and communication with their clients: <https://pubmed.ncbi.nlm.nih.gov/39157908/>
- Sarkar and colleagues identified what patients and caregivers contribute when engaged in ambulatory adverse events review, focusing on under-resourced care settings: <https://pubmed.ncbi.nlm.nih.gov/38991703/>
- Sarkar and colleagues examine near-miss events identified by primary care physicians in which taking additional time improved patient care or prevented harm: <https://pubmed.ncbi.nlm.nih.gov/38360962/>
- Tseng and colleagues aimed to identify the key risk factors that lead to subtypes of physical frailty assessed by walking speed and grip strength among community-dwelling Japanese individuals, stratified by the presence of musculoskeletal diseases (MSDs) and age group: <https://pubmed.ncbi.nlm.nih.gov/39031835/>
- Jia and colleagues compared the rates of advance care documentation and life-sustaining treatment between Chinese American and White American ICU decedents: <https://pubmed.ncbi.nlm.nih.gov/38574875/>
- Tseng and colleagues presented a prospective collection of cases across 3 cardiac centers of consecutive patients with wide complex tachycardias presumed to be ventricular tachycardia who were referred for consideration of an implantable cardiac defibrillators, and in whom further evaluation including an electrophysiology study ultimately demonstrated supraventricular tachycardia with aberrancy as the culprit arrhythmia: <https://pubmed.ncbi.nlm.nih.gov/38852223/>
- Qamar and colleagues described current food insecurity (FI)-related training among nutrition/dietetics, public health, and social work students: <https://pubmed.ncbi.nlm.nih.gov/39320297/>
